The reader is advised that these consolidated financial statements have been prepared originally in Chinese. In the event of a conflict between these financial statements and the original Chinese version or difference in interpretation between the two versions, the Chinese language financial statements shall prevail.

Review Report of Independent Accountants Translated from Chinese

To Fusheng Precision Co., Ltd.

Introduction

We have reviewed the accompanying consolidated balance sheets of Fusheng Precision Co., Ltd. (the “Company”) and its subsidiaries as of June 30, 2021 and 2020, the related consolidated statements of comprehensive income for the three-month and six-month periods ended June 30, 2021 and 2020 and consolidated statements of changes in equity and cash flows for the six-month periods ended June 30, 2021 and 2020, and notes to the consolidated financial statements, including the summary of significant accounting policies (together “the consolidated financial statements”). Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, “Interim Financial Reporting” as endorsed and became effective by Financial Supervisory Commission of the Republic of China. Our responsibility is to express a conclusion on these consolidated financial statements based on our reviews.

Scope of Review

We conducted our reviews in accordance with Statement of Auditing Standards No. 65 “Review of Financial Information Performed by the Independent Auditor of the Entity” of the Republic of China. A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the Republic of China and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Unqualified Conclusion

Based on our reviews, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Company and its subsidiaries as at June 30, 2021 and 2020, and their consolidated financial performance for the three-month and six-month periods ended June 30, 2021 and 2020, and their consolidated cash flows for the six-month periods ended June 30, 2021 and 2020, in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, “Interim Financial Reporting” as endorsed and became effective by Financial Supervisory Commission of the Republic of China.

Notice to Readers

The accompanying consolidated financial statements are intended only to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to review such consolidated financial statements are those generally accepted and applied in the Republic of China.

Accordingly, the accompanying consolidated financial statements and report of independent accountants are not intended for use by those who are not informed about the accounting principles or auditing standards generally accepted in the Republic of China, and their applications in practice. As the financial statements are the responsibility of the management, Ernst & Young cannot accept any liability for the use of, or reliance on, the English translation or for any errors or misunderstandings that may derive from the translation.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

For the Six-Month Periods Ended June 30, 2021 and 2020

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

1. History and organization

- (1) FuSheng Precision Co., Ltd. (The Company) was established by Coöperatieve Valiant APO Global U.A. on September 14, 2010.
- (2) To work in line with the parent company, Coöperatieve Valiant APO Global U.A., to engage in re-organization and specialization to enhance competitiveness and efficiency of management, the Company's board of directors ("Board of Directors") approved on September 14, 2010 the proposed deal to divide and assign the Sporting Goods Divisions (SGD) and Precision Products Divisions (PPD) of Fu Sheng Industrial CO., Ltd. under "Business Mergers and Acquisitions Act" and "Company Act", effective November 1, 2010. The assets, liabilities, all rights and obligations of SGD and PPD, including the existing factories, equipment and employees, were assigned to the Company upon completion of the division and assignment. The Company will continue to operate its business.
- (3) The Company's first public offering was approved in October 2017 and its shares were first traded on the emerging stock market on November 30, 2017. The Company's common shares were publicly listed on the Taiwan Stock Exchange (TWSE) on December 18, 2018. The Company's registered office and the main business location are at 3F., No. 172. Sec. 2, Nanjing E. Rd., Zhongshan Dist., Taipei City, Taiwan (R.O.C.) and No. 9, Xingzhong St., Taoyuan Dist., Taoyuan City 330, Taiwan (R.O.C.).

2. Date and procedures of authorization of financial statements for issue

The consolidated financial statements of the Company and its subsidiaries ("the Group") for the six-month periods ended June 30, 2021 and 2020 were authorized for issue by the Board of Directors on August 11, 2021.

3. Newly issued or revised standards and interpretations

- (1) Changes in accounting policies resulting from applying for the first time certain standards and amendments

The Group applied for the first time International Financial Reporting Standards, International Accounting Standards, and Interpretations issued, revised or amended which are recognized by Financial Supervisory Commission ("FSC") and become effective for annual periods beginning on or after January 1, 2021.

(2) Standards or interpretations issued, revised or amended, by International Accounting Standards Board (“IASB”) which are endorsed by FSC, but not yet adopted by the Group as at the end of the reporting period are listed below.

Item	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
A	Narrow-scope amendments of IFRS, including Amendments to IFRS 3, Amendments to IAS 16, Amendments to IAS 37 and the Annual Improvements	1 January 2022

A. Narrow-scope amendments of IFRS, including Amendments to IFRS 3, Amendments to IAS 16, Amendments to IAS 37 and the Annual Improvements

(a) Updating a Reference to the Conceptual Framework (Amendments to IFRS 3)

The amendments updated IFRS 3 by replacing a reference to an old version of the Conceptual Framework for Financial Reporting with a reference to the latest version, which was issued in March 2018. The amendments also added an exception to the recognition principle of IFRS 3 to avoid the issue of potential “day 2” gains or losses arising for liabilities and contingent liabilities. Besides, the amendments clarify existing guidance in IFRS 3 for contingent assets that would not be affected by replacing the reference to the Conceptual Framework.

(b) Property, Plant and Equipment: Proceeds before Intended Use (Amendments to IAS 16)

The amendments prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, a company will recognise such sales proceeds and related cost in profit or loss.

(c) Onerous Contracts - Cost of Fulfilling a Contract (Amendments to IAS 37)

The amendments clarify what costs a company should include as the cost of fulfilling a contract when assessing whether a contract is onerous.

(d) Annual Improvements to IFRS Standards 2018 - 2020

Amendment to IFRS 1

The amendment simplifies the application of IFRS 1 by a subsidiary that becomes a first-time adopter after its parent in relation to the measurement of cumulative translation differences.

Amendment to IFRS 9 Financial Instruments

The amendment clarifies the fees a company includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability.

Amendment to Illustrative Examples Accompanying IFRS 16 Leases

The amendment to Illustrative Example 13 accompanying IFRS 16 modifies the treatment of lease incentives relating to lessee's leasehold improvements.

Amendment to IAS 41

The amendment removes a requirement to exclude cash flows from taxation when measuring fair value thereby aligning the fair value measurement requirements in IAS 41 with those in other IFRS Standards.

The abovementioned standards and interpretations were issued by IASB and endorsed by FSC so that they are applicable for annual periods beginning on or after January 1, 2022. The new standards and interpretations have no material impact on the Group.

(3) Standards or interpretations issued, revised or amended, by IASB which are not endorsed by FSC, and not yet adopted by the Group as at the end of the reporting period are listed below.

Items	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
A	IFRS 10 "Consolidated Financial Statements" and IAS 28 "Investments in Associates and Joint Ventures" – Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures	To be determined by IASB
B	IFRS 17 "Insurance Contracts"	January 1, 2023
C	Classification of Liabilities as Current or Non-current – Amendments to IAS 1	January 1, 2023
D	Disclosure Initiative - Accounting Policies – Amendments to IAS 1	January 1, 2023
E	Definition of Accounting Estimates – Amendments to IAS 8	January 1, 2023
F	Deferred Tax related to Assets and Liabilities arising from a Single Transaction – Amendments to IAS 12	January 1, 2023

A. IFRS 10 "Consolidated Financial Statements" and IAS 28 "Investments in Associates and Joint Ventures" – Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures

The amendments address the inconsistency between the requirements in IFRS 10 *Consolidated Financial Statements* and IAS 28 *Investments in Associates and Joint Ventures*, in dealing with the loss of control of a subsidiary that is contributed to an associate or a joint venture. IAS 28 restricts gains and losses arising from contributions of non-monetary assets to an associate or a joint venture to the extent of the interest attributable to the other equity holders in the associate or joint ventures. IFRS 10 requires full profit or loss recognition on the loss of control of the subsidiary. IAS 28 was amended so that the gain or loss resulting from the sale or contribution of assets that constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized in full.

IFRS 10 was also amended so that the gains or loss resulting from the sale or contribution of a subsidiary that does not constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized only to the extent of the unrelated investors' interests in the associate or joint venture.

B. IFRS 17 "Insurance Contracts"

IFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects (including recognition, measurement, presentation and disclosure requirements). The core of IFRS 17 is the General (building block) Model, under this model, on initial recognition, an entity shall measure a group of insurance contracts at the total of the fulfilment cash flows and the contractual service margin. The carrying amount of a group of insurance contracts at the end of each reporting period shall be the sum of the liability for remaining coverage and the liability for incurred claims.

Other than the General Model, the standard also provides a specific adaptation for contracts with direct participation features (the Variable Fee Approach) and a simplified approach (Premium Allocation Approach) mainly for short-duration contracts.

IFRS 17 was issued in May 2017 and it was amended in June 2020. The amendments include deferral of the date of initial application of IFRS 17 by two years to annual beginning on or after January 1, 2023 (from the original effective date of January 1, 2021); provide additional transition reliefs; simplify some requirements to reduce the costs of applying IFRS 17 and revise some requirements to make the results easier to explain. IFRS 17 replaces an interim Standard – IFRS 4 Insurance Contracts – from annual reporting periods beginning on or after January 1, 2023.

C. Classification of Liabilities as Current or Non-current – Amendments to IAS 1

These are the amendments to paragraphs 69-76 of IAS 1 Presentation of Financial statements and the amended paragraphs related to the classification of liabilities as current or non-current.

D. Disclosure Initiative – Accounting Policies – Amendments to IAS 1

The amendments improve accounting policy disclosures that to provide more useful information to investors and other primary users of the financial statements.

E. Definition of Accounting Estimates – Amendments to IAS 8

The amendments introduce the definition of accounting estimates and included other amendments to IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors to help companies distinguish changes in accounting estimates from changes in accounting policies.

F. Deferred Tax related to Assets and Liabilities arising from a Single Transaction – Amendments to IAS 12

The amendments narrow the scope of the recognition exemption in paragraphs 15 and 24 of IAS 12 so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences.

The abovementioned standards and interpretations issued by IASB have not yet endorsed by FSC at the date when the Group's financial statements were authorized for issue, the local effective dates are to be determined by FSC. As the Group is still currently determining the potential impact of the standards and interpretations listed under A., C., D. and E., it is not practicable to estimate their impact on the Group at this point in time. The remaining new or amended standards and interpretations have no material impact on the Group.

4. Summary of significant accounting policies

(1) Statement of compliance

The consolidated financial statements of the Group for the six-month periods ended June 30, 2021 and 2020 have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers ("the Regulations") and IAS 34 *Interim Financial Reporting* as endorsed and became effective by the FSC.

(2) Basis of preparation

The consolidated financial statements have been prepared on a historical cost basis, except for financial instruments that have been measured at fair value. The consolidated financial statements are expressed in thousands of New Taiwan Dollars ("NT\$") unless otherwise stated.

(3) Basis of consolidation

Preparation principle of consolidated financial statement

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- A. power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- B. exposure, or rights, to variable returns from its involvement with the investee, and
- C. the ability to use its power over the investee to affect its returns

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- A. the contractual arrangement with the other vote holders of the investee
- B. rights arising from other contractual arrangements
- C. the Group's voting rights and potential voting rights

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Subsidiaries are fully consolidated from the acquisition date, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases. The financial statements of the subsidiaries are prepared for the same reporting period as the parent company, using uniform accounting policies. All intra-group balances, income and expenses, unrealized gains and losses and dividends resulting from intra-group transactions are eliminated in full.

A change in the ownership interest of a subsidiary, without a change of control, is accounted for as an equity transaction.

Total comprehensive income of the subsidiaries is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

If the Group loses control of a subsidiary, it:

- A. derecognizes the assets (including goodwill) and liabilities of the subsidiary;
- B. derecognizes the carrying amount of any non-controlling interest;
- C. recognizes the fair value of the consideration received;
- D. recognizes the fair value of any investment retained;
- E. recognizes any surplus or deficit in profit or loss; and
- F. reclassifies the parent's share of components previously recognized in other comprehensive income to profit or loss.

The consolidated entities are listed as follows:

Name of the investors	Name of subsidiaries	Nature of Business	Percentage of ownership (%)		
			June 30, 2021	December 31, 2020	June 30, 2020
The Company	Sharphope Company Ltd.	Investment holding	100%	100%	100%
The Company	Vision International Co., Ltd.	Manufacture and sale of golf club head	100%	100%	100%

Name of the investors	Name of subsidiaries	Nature of Business	Percentage of ownership (%)		
			June 30, 2021	December 31, 2020	June 30, 2020
The Company	Gainsmart Group Ltd.	Investment holding	100%	100%	100%
The Company	World Gate Holdings Ltd.	Investment holding	100%	100%	100%
The Company	NFT Technology CO., Ltd.	Manufacture and sale of medical equipment and automotive parts	69.74%	69.74%	69.74%
The Company	Crosspace Co., Ltd.	Selling pure titanium tableware and kitchenware	100%	100%	100%
The Company	Minson Integration, Inc.	R&D and sales of shoes, helmets and protective gear for ice hockey, cross-country motorcycles, baseball, skiing and other sports	85% (Note1)	85% (Note1)	-
Sharphope Company Ltd.	Extensor World Trading Ltd. (Hong Kong)	International trade	100%	100%	100%

Name of the investors	Name of subsidiaries	Nature of Business	Percentage of ownership (%)		
			June 30, 2021	December 31, 2020	June 30, 2020
Zhong Shan Worldmark	Zhong Shan Dingxing	Research, development and manufacturing of vacuum	100%	100%	100%
Sporting Goods Ltd.	Vacuum Technology Co., Ltd.	technology products, vacuum coating processing and sports equipment, metal products import and export business			
Minson Integration,Inc.	MENXON ENTERPRISES (THAILAND) COMPANY LIMITED	Manufacture and sale of ice hockey shoes and motocross boots	100% (Note1)	100% (Note1)	-
Minson Integration,Inc.	MINONE ENTERPRISES COMPANY LIMITED	Manufacture and sale of motocross boots, skates and sports protective gear	100% (Note1)	100% (Note1)	-
Minson Integration,Inc.	MINSON ENTERPRISES (THAILAND) COMPANY LIMITED	Manufacture and sale of motocross boots and protective gear and in-line skates	100% (Note1)	100% (Note1)	-
Minson Integration,Inc.	MINTECH ENTERPRISES COMPANY LIMITED	Manufacture , R&D and sale of plastic injection parts, sports helmets and various footwear, protective gear	100% (Note1)	100% (Note1)	-

(Note 1) In order to expand the sporting goods business layout, diversify operations, and improve operating performance, the Company acquire Minson Integration, Inc. and its subsidiaries' equity in the amount of \$1,331,100 thousand, and set November 30, 2020 as the acquisition base date. Please refer to Note 6(25) for more details.

(Note 2) To meet overseas order demand, the Company established AUBO PRECISION (HONG KONG) CO., LIMITED through its subsidiary: Zhong Shan Aubo Precision Technology Co., Ltd. with HKD\$100,000 on July 13, 2020.

(4) Foreign currency transactions

The Group's consolidated financial statements are presented in NT dollars, which is also the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

Transactions in foreign currencies are initially recorded by the Group entities at their respective functional currency rates prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency closing rate of exchange ruling at the reporting date. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. Non-monetary items that are measured at historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions.

All exchange differences arising on the settlement of monetary items or on translating monetary items are taken to profit or loss in the period in which they arise except for the following:

- A. Exchange differences arising from foreign currency borrowings for an acquisition of a qualifying asset to the extent that they are regarded as an adjustment to interest costs are included in the borrowing costs that are eligible for capitalization.
- B. Foreign currency items within the scope of IFRS 9 *Financial Instruments* are accounted for based on the accounting policy for financial instruments.
- C. Exchange differences arising on a monetary item that forms part of a reporting entity's net investment in a foreign operation is recognized initially in other comprehensive income and reclassified from equity to profit or loss on disposal of the net investment.

When a gain or loss on a non-monetary item is recognized in other comprehensive income, any exchange component of that gain or loss is recognized in other comprehensive income. When a gain or loss on a non-monetary item is recognized in profit or loss, any exchange component of that gain or loss is recognized in profit or loss.

(5) Translation of financial statements in foreign currency

The assets and liabilities of foreign operations are translated into NT dollars at the closing rate of exchange prevailing at the reporting date and their income and expenses are translated at an average rate for the period. The exchange differences arising on the translation are recognized in other comprehensive income. On the disposal of a foreign operation, the cumulative amount of the exchange differences relating to that foreign operation, recognized in other comprehensive income and accumulated in the separate component of equity, is reclassified from equity to profit or loss when the gain or loss on disposal is recognized.

On the partial disposal of a subsidiary that includes a foreign operation that does not result in a loss of control, the proportionate share of the cumulative amount of the exchange differences recognized in other comprehensive income is re-attributed to the non-controlling interests in that foreign operation. In partial disposal of an associate or joint arrangement that includes a foreign operation that does not result in a loss of significant influence or joint control, only the proportionate share of the cumulative amount of the exchange differences recognized in other comprehensive income is reclassified to profit or loss.

Any goodwill and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and expressed in its functional currency.

(6) Current and non-current distinction

An asset is classified as current when:

- A. The Group expects to realize the asset, or intends to sell or consume it, in its normal operating cycle
- B. The Group holds the asset primarily for the purpose of trading
- C. The Group expects to realize the asset within twelve months after the reporting period
- D. The asset is cash or cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:

- A. The Group expects to settle the liability in its normal operating cycle
- B. The Group holds the liability primarily for the purpose of trading
- C. The liability is due to be settled within twelve months after the reporting period
- D. The Group does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

(7) Cash and cash equivalents

Cash and cash equivalents comprises cash on hand, demand deposits and short-term, highly liquid time deposits (including ones that have maturity within three months) or investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(8) Financial instruments

Financial assets and financial liabilities are recognized when the Group becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities within the scope of IFRS 9 *Financial Instruments* are recognized initially at fair value plus or minus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs.

A. Financial instruments: Recognition and Measurement

The Group accounts for regular way purchase or sales of financial assets on the trade date.

The Group classified financial assets as subsequently measured at amortized cost, fair value through other comprehensive income or fair value through profit or loss considering both factors below:

- (a) the Group's business model for managing the financial assets and
- (b) the contractual cash flow characteristics of the financial asset.

Financial assets measured at amortized cost

A financial asset is measured at amortized cost if both of the following conditions are met and presented as note receivables, trade receivables financial assets measured at amortized cost and other receivables etc., on balance sheet as at the reporting date:

- (a) the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- (b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Such financial assets are subsequently measured at amortized cost (the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount and the maturity amount and adjusted for any loss allowance) and is not part of a hedging relationship. A gain or loss is recognized in profit or loss when the financial asset is derecognized, through the amortization process or in order to recognize the impairment gains or losses.

Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:

- (a) purchased or originated credit-impaired financial assets. For those financial assets, the Group applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
- (b) financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Group applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

Financial asset measured at fair value through other comprehensive income

A financial asset is measured at fair value through other comprehensive income if both of the following conditions are met:

- (a) the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
- (b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Recognition of gain or loss on a financial asset measured at fair value through other comprehensive income are described as below:

- (a) A gain or loss on a financial asset measured at fair value through other comprehensive income recognized in other comprehensive income, except for impairment gains or losses and foreign exchange gains and losses, until the financial asset is derecognized or reclassified.
- (b) When the financial asset is derecognized the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment.
- (c) Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:
 - i. Purchased or originated credit-impaired financial assets. For those financial assets, the Group applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
 - ii. Financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Group applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

Besides, for certain equity investments within the scope of IFRS 9 that is neither held for trading nor contingent consideration recognized by an acquirer in a business combination to which IFRS 3 applies, the Group made an irrevocable election to present the changes of the fair value in other comprehensive income at initial recognition. Amounts presented in other comprehensive income shall not be subsequently transferred to profit or loss (when disposal of such equity instrument, its cumulated amount included in other components of equity is transferred directly to the retained earnings) and these investments should be presented as financial assets measured at fair value through other comprehensive income on the balance sheet. Dividends on such investment are recognized in profit or loss unless the dividends clearly represents a recovery of part of the cost of investment.

Financial asset measured at fair value through profit or loss

Financial assets were classified as measured at amortized cost or measured at fair value through other comprehensive income based on aforementioned criteria. All other financial assets were measured at fair value through profit or loss and presented on the balance sheet as financial assets measured at fair value through profit or loss.

Such financial assets are measured at fair value, the gains or losses resulting from remeasurement is recognized in profit or loss which includes any dividend or interest received on such financial assets.

B. Impairment of financial assets

The Group recognizes a loss allowance for expected credit losses on financial asset measured at amortized cost.

The Group measures expected credit losses of a financial instrument in a way that reflects:

- (a) an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- (b) the time value of money; and
- (c) reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The loss allowance is measures as follow:

- (a) At an amount equal to 12-month expected credit losses: the credit risk on a financial asset has not increased significantly since initial recognition or the financial asset is determined to have low credit risk at the reporting date. In addition, the Group measures the loss allowance for a financial asset at an amount equal to lifetime expected credit losses in the previous reporting period, but determines at the current reporting date that condition is no longer met.
- (b) At an amount equal to the lifetime expected credit losses: the credit risk on a financial asset has increased significantly since initial recognition or financial asset that is purchased or originated credit-impaired financial asset.
- (c) For trade receivables or contract assets arising from transactions within the scope of IFRS 15, the Group measures the loss allowance at an amount equal to lifetime expected credit losses.
- (d) For lease receivables arising from transactions within the scope of IFRS 16, the Group measures the loss allowance at an amount equal to lifetime expected credit losses.

At each reporting date, the Group needs to assess whether the credit risk on a financial asset has increased significantly since initial recognition by comparing the risk of a default occurring at the reporting date and the risk of default occurring at initial recognition. Please refer to Note 12 for further details on credit risk.

C. Derecognition of financial assets

A financial asset is derecognized when:

- (a) The rights to receive cash flows from the asset have expired
- (b) The Group has transferred the asset and substantially all the risks and rewards of the asset have been transferred
- (c) The Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset in its entirety, the difference between the carrying amount and the consideration received or receivable including any cumulative gain or loss that had been recognized in other comprehensive income is recognized in profit or loss.

D. Financial liabilities and equity

Classification between liabilities or equity

The Group classifies the instrument issued as a financial liability or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial liability, and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. The transaction costs of an equity transaction are accounted for as a deduction from equity (net of any related income tax benefit) to the extent they are incremental costs directly attributable to the equity transaction that otherwise would have been avoided.

Financial liabilities

Financial liabilities within the scope of IFRS 9 *Financial Instruments* are classified as financial liabilities at fair value through profit or loss or financial liabilities measured at amortized cost upon initial recognition.

Financial liabilities at amortized cost

Financial liabilities measured at amortized cost include interest bearing loans and borrowings that are subsequently measured using the effective interest rate method after initial recognition. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the effective interest rate method amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or transaction costs.

Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified (whether or not attributable to the financial difficulty of the debtor), such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

E. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the balance sheet if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

(9) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- A. In the principal market for the asset or liability, or
- B. In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

(10) Inventories

Inventories are valued at lower of cost and net realizable value item by item.

Costs incurred in bringing each inventory to its present location and condition are accounted for as follows:

Raw materials - Purchase cost on a weighted average cost basis.

Finished goods and work in progress - Cost of direct materials and labor and a proportion of manufacturing overheads based on normal operating capacity but excluding borrowing costs.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Rendering of services is accounted in accordance with IFRS 15 and not within the scope of inventories.

(11) Investments accounted for using the equity method

The Group's investment in its associate is accounted for using the equity method other than those that meet the criteria to be classified as held for sale. An associate is an entity over which the Group has significant influence. A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture.

Under the equity method, the investment in the associate or an investment in a joint venture is carried in the balance sheet at cost and adjusted thereafter for the post-acquisition change in the Group's share of net assets of the associate or joint venture. After the interest in the associate or joint venture is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture. Unrealized gains and losses resulting from transactions between the Group and the associate or joint venture are eliminated to the extent of the Group's related interest in the associate or joint venture.

When changes in the net assets of an associate or a joint venture occur and not those that are recognized in profit or loss or other comprehensive income and do not affect the Group's percentage of ownership interests in the associate or joint venture, the Group recognizes such changes in equity based on its percentage of ownership interests. The resulting capital surplus recognized will be reclassified to profit or loss at the time of disposing the associate or joint venture on a pro rata basis.

When the associate or joint venture issues new stock, and the Group's interest in an associate or a joint venture is reduced or increased as the Group fails to acquire shares newly issued in the associate or joint venture proportionately to its original ownership interest, the increase or decrease in the interest in the associate or joint venture is recognized in Additional Paid in Capital and Investment accounted for using the equity method. When the interest in the associate or joint venture is reduced, the cumulative amounts previously recognized in other comprehensive income are reclassified to profit or loss or other appropriate items. The aforementioned capital surplus recognized is reclassified to profit or loss on a pro rata basis when the Group disposes the associate or joint venture.

The financial statements of the associate or joint venture are prepared for the same reporting period as the Group. Where necessary, adjustments are made to bring the accounting policies in line with those of the Group.

The Group determines at each reporting date whether there is any objective evidence that the investment in the associate or an investment in a joint venture is impaired in accordance with IAS 28 *Investments in Associates and Joint Ventures*. If this is the case the Group calculates the amount of impairment as the difference between the recoverable amount of the associate or joint venture and its carrying value and recognizes the amount in the 'share of profit or loss of an associate' in the statement of comprehensive income in accordance with IAS 36 *Impairment of Assets*. In determining the value in use of the investment, the Group estimates:

- A. Its share of the present value of the estimated future cash flows expected to be generated by the associate or joint venture, including the cash flows from the operations of the associate and the proceeds on the ultimate disposal of the investment; or
- B. The present value of the estimated future cash flows expected to arise from dividends to be received from the investment and from its ultimate disposal.

Because goodwill that forms part of the carrying amount of an investment in an associate or an investment in a joint venture is not separately recognized, it is not tested for impairment separately by applying the requirements for impairment testing goodwill in IAS 36 *Impairment of Assets*.

Upon loss of significant influence over the associate or joint venture, the Group measures and recognizes any retaining investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence and the fair value of the retaining investment and proceeds from disposal is recognized in profit or loss. Furthermore, if an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate, the entity continues to apply the equity method and does not remeasure the retained interest.

(12)Property, plant and equipment

Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of dismantling and removing the item and restoring the site on which it is located and borrowing costs for construction in progress if the recognition criteria are met. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. When significant parts of property, plant and equipment are required to be replaced in intervals, the Group recognized such parts as individual assets with specific useful lives and depreciation, respectively. The carrying amount of those parts that are replaced is derecognized in accordance with the derecognition provisions of IAS 16 *Property, plant and equipment*. When a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Depreciation is calculated on a straight-line basis over the estimated economic lives of the following assets:

Buildings	6~45 years
Machinery and equipment	1~10 years
Other equipment	2~16 years

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is recognized in profit or loss.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

(13)Investment property

The Group's owned investment properties are measured initially at cost, including transaction costs. The carrying amount includes the cost of replacing part of an existing investment property at the time that cost is incurred if the recognition criteria are met and excludes the costs of day-to-day servicing of an investment property. Subsequent to initial recognition, other than those that meet the criteria to be classified as held for sale (or are included in a disposal group that is classified as held for sale) in accordance with IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations*, investment properties are measured using the cost model in accordance with the requirements of IAS 16 *Property, plant and equipment* for that model. If investment properties are held by a lessee as right-of-use assets and is not held for sale in accordance with IFRS 5, investment properties are measured in accordance with the requirements of IFRS 16.

Depreciation is calculated on a straight-line basis over the estimated economic lives of the following assets:

Buildings	20 years
-----------	----------

Investment properties are derecognized when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period of derecognition.

The Group transfers properties to or from investment properties according to the actual use of the properties.

The Group transfers to or from investment properties when there is a change in use for these assets. Properties are transferred to or from investment properties when the properties meet, or cease to meet, the definition of investment property and there is evidence of the change in use.

(14) Leases

The Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset for a period of time, the Group assesses whether, throughout the period of use, has both of the following:

- A. the right to obtain substantially all of the economic benefits from use of the identified asset; and
- B. the right to direct the use of the identified asset.

For a contract that is, or contains, a lease, the Group accounts for each lease component within the contract as a lease separately from non-lease components of the contract. For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components. The relative stand-alone price of lease and non-lease components shall be determined on the basis of the price the lessor, or a similar supplier, would charge the Group for that component, or a similar component, separately. If an observable stand-alone price is not readily available, the Group estimates the stand-alone price, maximising the use of observable information.

Group as a lessee

Except for leases that meet and elect short-term leases or leases of low-value assets, the Group recognizes right-of-use asset and lease liability for all leases which the Group is the lessee of those lease contracts.

At the commencement date, the Group measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses its incremental borrowing rate. At the commencement date, the lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

- A. fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- B. variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- C. amounts expected to be payable by the lessee under residual value guarantees;
- D. the exercise price of a purchase option if the Group is reasonably certain to exercise that option; and
- E. payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

After the commencement date, the Group measures the lease liability on an amortised cost basis, which increases the carrying amount to reflect interest on the lease liability by using an effective interest method; and reduces the carrying amount to reflect the lease payments made.

At the commencement date, the Group measures the right-of-use asset at cost. The cost of the right-of-use asset comprises:

- A. the amount of the initial measurement of the lease liability;
- B. any lease payments made at or before the commencement date, less any lease incentives received;
- C. any initial direct costs incurred by the lessee; and
- D. an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

For subsequent measurement of the right-of-use asset, the Group measures the right-of-use asset at cost less any accumulated depreciation and any accumulated impairment losses. That is, the Group measures the right-of-use applying a cost model.

If the lease transfers ownership of the underlying asset to the Group by the end of the lease term or if the cost of the right-of-use asset reflects that the Group will exercise a purchase option, the Group depreciates the right-of-use asset from the commencement date to the end of the useful life of the underlying asset. Otherwise, the Group depreciates the right-of-use asset from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

The Group applies IAS 36 “Impairment of Assets” to determine whether the right-of-use asset is impaired and to account for any impairment loss identified.

Except for those leases that the Group accounted for as short-term leases or leases of low-value assets, the Group presents right-of-use assets and lease liabilities in the balance sheet and separately presents lease-related interest expense and depreciation charge in the statements comprehensive income.

For short-term leases or leases of low-value assets, the Group elects to recognize the lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis.

Group as a lessor

At inception of a contract, the Group classifies each of its leases as either an operating lease or a finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset. At the commencement date, the Group recognizes assets held under a finance lease in its balance sheet and present them as a receivable at an amount equal to the net investment in the lease.

For a contract that contains lease components and non-lease components, the Group allocates the consideration in the contract applying IFRS 15.

The Group recognizes lease payments from operating leases as rental income on either a straight-line basis or another systematic basis. Variable lease payments for operating leases that do not depend on an index or a rate are recognized as rental income when incurred.

(15) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is its fair value as of the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in profit or loss for the year in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each financial year. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and are treated as changes in accounting estimates.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in profit or loss when the asset is derecognized.

Relationship of customer

The cost of customer relationship incurs as a result of merger and acquisition and is amortized on a straight-line basis over the estimated useful life of 10 years.

Technology and Know-how

The cost of technology and know-how incurs as a result of merger and acquisition and is amortized on a straight-line basis over the estimated useful life of 5 to 7 years.

Goodwill

Goodwill arising from business combinations is not amortized, and is tested for impairment annually or more frequently if events or change in circumstances suggest that the carrying amount may not be recoverable. If an event occurs or circumstances change which indicates that the goodwill is impaired, an impairment loss is recognized. Goodwill impairment losses cannot be reversed once recognized.

Computer software

The cost of computer software is amortized on a straight-line basis over the estimated useful life (1 to 2 years).

A summary of the policies applied to the Group's intangible assets is as follows:

	Relationship of customer	Technology and Know-how	Goodwill	Computer software
Useful lives	Finite	Finite	Unsure	Finite
Amortization method used	Amortized on a straight- line basis over the estimated useful life	Amortized on a straight- line basis over the estimated useful life	Unamortized	Amortized on a straight- line basis over the estimated useful life
Internally generated or acquired	Acquired	Acquired	Acquired	Acquired

(16) Impairment of non-financial assets

The Group assesses at the end of each reporting period whether there is any indication that an asset in the scope of IAS 36 *Impairment of Assets* may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's ("CGU") fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Group estimates the asset's or cash-generating unit's recoverable amount. A previously recognized impairment loss is reversed only if there has been an increase in the estimated service potential of an asset which in turn increases the recoverable amount. However, the reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years.

A cash generating unit, or groups of cash-generating units, to which goodwill has been allocated is tested for impairment annually at the same time, irrespective of whether there is any indication of impairment. If an impairment loss is to be recognized, it is first allocated to reduce the carrying amount of any goodwill allocated to the cash generating unit (group of units), then to the other assets of the unit (group of units) pro rata on the basis of the carrying amount of each asset in the unit (group of units). Impairment losses relating to goodwill cannot be reversed in future periods for any reason.

An impairment loss of continuing operations or a reversal of such impairment loss is recognized in profit or loss.

(17) Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Group expects some or all of a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Provision for decommissioning, restoration and rehabilitation costs

The provision for decommissioning, restoration and rehabilitation costs arose on construction of a property, plant and equipment. Decommissioning costs are provided at the present value of expected costs to settle the obligation using estimated cash flows and are recognized as part of the cost of that particular asset. The cash flows are discounted at a current pre-tax rate that reflects the risks specific to the decommissioning liability. The unwinding of the discount is expensed as incurred and recognized as a finance cost. The estimated future costs of decommissioning are reviewed annually and adjusted as appropriate. Changes in the estimated future costs or in the discount rate applied are added to or deducted from the cost of the asset.

Other long-term provision

According to management's judgement and other known reasons, the expected employee occupational injury expenses were recognized as miscellaneous expenses and estimated related provisions.

(18) Revenue recognition

The Group's revenue arising from contracts with customers are primarily related to sale of goods and rendering of services. The accounting policies are explained as follow:

Sale of goods

The Group manufactures and sells goods. Sales are recognized when control of the goods is transferred to the customer and the goods are delivered to the customers. The main product of the Group is golf club head and revenue is recognized based on the consideration stated in the contract.

For some of services contracts, part of the consideration was received from customers upon signing the contract, and the Group has the obligation to provide the services subsequently; accordingly, these amounts are recognized as contract liabilities.

The period between the transfers of contract liabilities to revenue is usually within one year, thus, no significant financing component is arised.

Rendering of services

The Group provides technology services. These services recognize revenue based on the content of the relevant agreement. Most of the contractual considerations of the Group are collected evenly throughout the contract period.

(19) Post-employment benefits

All regular employees of the Company and its domestic subsidiaries are entitled to a pension plan that is managed by an independently administered pension fund committee. Fund assets are deposited under the committee's name in the specific bank account and hence, not associated with the Company and its domestic subsidiaries. Therefore, fund assets are not included in the Group's consolidated financial statements. Pension benefits for employees of the overseas subsidiaries and the branches are provided in accordance with the respective local regulations.

For the defined contribution plan, the Company and its domestic subsidiaries will make a monthly contribution of no less than 6% of the monthly wages of the employees subject to the plan. The Company recognizes expenses for the defined contribution plan in the period in which the contribution becomes due. Overseas subsidiaries and branches make contribution to the plan based on the requirements of local regulations.

Post-employment benefit plan that is classified as a defined benefit plan uses the Projected Unit Credit Method to measure its obligations and costs based on actuarial assumptions. Re-measurements, comprising of the effect of the actuarial gains and losses, the effect of the asset ceiling (excluding net interest) and the return on plan assets, excluding net interest, are recognized as other comprehensive income with a corresponding debit or credit to retained earnings in the period in which they occur. Past service costs are recognized in profit or loss on the earlier of:

- A. the date of the plan amendment or curtailment, and
- B. the date that the Group recognizes restructuring-related costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset, both as determined at the start of the annual reporting period, taking account of any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefit payment.

Pension cost for an interim period is calculated on a year-to-date basis by using the actuarially determined pension cost rate at the end of the prior financial year, adjusted and disclosed for significant market fluctuations since that time and for significant curtailments, settlements, or other significant one-off events.

(20) Income taxes

Income tax expense (income) is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Current income tax relating to items recognized in other comprehensive income or directly in equity is recognized in other comprehensive income or equity and not in profit or loss.

The income tax for undistributed earnings is recognized as income tax expense in the subsequent year when the distribution proposal is approved by the Shareholders' meeting.

Deferred tax

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- A. Where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- B. In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- A. Where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- B. In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date. The measurement of deferred tax assets and deferred tax liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity. Deferred tax assets are reassessed at each reporting date and are recognized accordingly.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Interim period income tax expense is accrued using the tax rate that would be applicable to expected total annual earnings, that is, the estimated average annual effective income tax rate applied to the pre-tax income of the interim period. The estimated average annual effective income tax rate only includes current income tax. The recognition and measurement of deferred tax follows annual financial reporting requirements in accordance with IAS 12. The Group recognizes the effect of change in tax rate for deferred taxes in full if the new tax rate is enacted by the end of the interim reporting period, by charging to profit or loss, other comprehensive income, or directly to equity.

(21) Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The consideration transferred, the identifiable assets acquired and liabilities assumed are measured at acquisition date fair value. For each business combination, the acquirer measures any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are accounted for as expenses in the periods in which the costs are incurred and are classified under administrative expenses.

When the Group acquires a business, it assesses the assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as of the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date through profit or loss.

Any contingent consideration to be transferred by the acquirer will be recognized at the acquisition-date fair value. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset or liability, will be recognized in accordance with IAS 9 *Financial Instruments* either in profit or loss or as a change to other comprehensive income. However, if the contingent consideration is classified as equity, it should not be remeasured until it is finally settled within equity.

Goodwill is initially measured as the amount of the excess of the aggregate of the consideration transferred and the non-controlling interest over the net fair value of the identifiable assets acquired and the liabilities assumed. If this aggregate is lower than the fair value of the net assets acquired, the difference is recognized in profit or loss.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units. Each unit or group of units to which the goodwill is so allocated represents the lowest level within the Group at which the goodwill is monitored for internal management purpose and is not larger than an operating segment before aggregation.

Where goodwill forms part of a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation. Goodwill disposed of in this circumstance is measured based on the relative recoverable amounts of the operation disposed of and the portion of the cash-generating unit retained.

5. Significant accounting judgments, estimates and assumptions

The preparation of the Group's consolidated financial statements require management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumption and estimate could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

(1) Pension benefits

The cost of post-employment benefit and the present value of the pension obligation under defined benefit pension plans are determined using actuarial valuations. An actuarial valuation involves making various assumptions. These include the determination of the discount rate and change of the future salary etc..

(2) Income tax

Uncertainties exist with respect to the interpretation of complex tax regulations and the amount and timing of future taxable income. Given the wide range of international business relationships and the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Group establishes provisions, based on reasonable estimates, for possible consequences of audits by the tax authorities of the respective countries in which it operates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective Group company's domicile.

Deferred tax assets are recognized for all carryforward of unused tax losses and unused tax credits and deductible temporary differences to the extent that it is probable that taxable profit will be available or there are sufficient taxable temporary differences against which the unused tax losses, unused tax credits or deductible temporary differences can be utilized. The amount of deferred tax assets determined to be recognized is based upon the likely timing and the level of future taxable profits and taxable temporary differences together with future tax planning strategies.

(3) Accounts receivables—estimation of impairment loss

The Group estimates the impairment loss of accounts receivables at an amount equal to lifetime expected credit losses. The credit loss is the present value of the difference between the contractual cash flows that are due under the contract (carrying amount) and the cash flows that expects to receive (evaluate forward looking information). However, as the impact from the discounting of short-term receivables is not material, the credit loss is measured by the undiscounted cash flows. Where the actual future cash flows are lower than expected, a material impairment loss may arise. Please refer to Note 6 for more details.

(4) Inventories

Estimates of net realisable value of inventories take into consideration that inventories may be damaged, become wholly or partially obsolete, or their selling prices have declined. The estimates are based on the most reliable evidence available at the time the estimates are made. Please refer to Note 6 for more details.

(5) Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

(6) Impairment of non-financial assets—goodwill

An impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value in use. The fair value less costs to sell calculation is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date less incremental costs that would be directly attributable to the disposal of the asset or cash generating unit. The value in use calculation is based on a discounted cash flow model. The cash flows projections are derived from the budget for the next five years and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance of the cash generating unit being tested. The recoverable amount is most sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. The key assumptions used to determine the recoverable amount for the different cash generating units, including a sensitivity analysis, are further explained in Note 6.

6. Contents of significant accounts

(1) Cash and cash equivalents

	As of		
	June 30, 2021	December 31, 2020	June 30, 2020
Cash on hand	\$2,244	\$2,115	\$2,050
Checking and savings accounts	1,758,043	1,558,092	3,520,015
Time deposits	28,044	12,968	41,897
Total	\$1,788,331	\$1,573,175	\$3,563,962

(2) Financial assets at fair value through profit or loss

	As of		
	June 30, 2021	December 31, 2020	June 30, 2020
Financial assets mandatorily measured at fair value through profit or loss:			
Preferred stocks	\$178,583	\$177,466	\$182,697
Financial products	51,696	56,157	33,136
Unlisted stocks	1,400	1,400	1,400
US dollar aggressive funds	425	401	330
Total	\$232,104	\$235,424	\$217,563

	As of		
	June 30, 2021	December 31, 2020	June 30, 2020
Current	\$230,279	\$233,623	\$215,833
Non-current	1,825	1,801	1,730
Total	\$232,104	\$235,424	\$217,563

Financial assets at fair value through profit or loss were not pledged.

(3) Financial assets measured at amortized cost

	As of		
	June 30, 2021	December 31, 2020	June 30, 2020
Time deposits	\$287,206	\$15,000	\$15,000
Restricted deposit	14,700	14,700	2,076
Repatriated Offshore Funds (Note)	130,432	259,757	-
Total	\$432,338	\$289,457	\$17,076
Current	\$301,906	\$29,700	\$17,076
Non-current	130,432	259,757	-
Total	\$432,338	\$289,457	\$17,076

Note: The Group applied to be applicable under the "The Management, Utilization, and Taxation of Repatriated Offshore Funds Act" in April 2020 and was approved to open a segregated foreign exchange deposit account by National Taxation Bureau of the Northern Area, Ministry of Finance. The repatriation of overseas investment income of US\$10,000 thousand is subject to an 8% withholding tax rate. After paying the income tax of US\$800 thousand, the remaining amount of US\$9,200 thousand (equivalent to \$258,980 thousand) , according to The Management, Utilization, and Taxation of Repatriated Offshore Funds Act, was deemed funds that have not engaged in substantial investment and financial investment, and can only be withdrawn over a period of three years upon the expiry of five full years after the date of being deposited into the segregated foreign exchange deposit account. The Group actually withdrew US\$4,520 thousand (equivalent to \$132,775 thousand) for related substantial investments in the six-month periods ended June 30, 2021.

The Group classified certain financial assets as financial assets measured at amortized cost. Please refer to Note 6(18) for more details on loss allowance and Note 8 for more details on financial assets measured at amortized cost under pledge. Please refer to Note 12 for more details on credit risk.

(4) Notes receivables

	As of		
	June 30, 2021	December 31, 2020	June 30, 2020
Notes receivables arising from operating activities (total carrying amount)	\$3,049	\$8,661	\$6,320
Less: loss allowance	-	-	-
Total	\$3,049	\$8,661	\$6,320

Notes receivables were not pledged.

The Group follows the requirement of IFRS 9 to assess the impairment. Please refer to Note 6(18) for more details on loss allowance and Note 12 for details on credit risk.

(5) Accounts receivable, net

	As of		
	June 30, 2021	December 31, 2020	June 30, 2020
Accounts receivable (total carrying amount)	\$3,882,108	\$3,777,110	\$1,756,424
Less: loss allowance	(7,098)	(6,489)	(4,881)
Subtotal	3,875,010	3,770,621	1,751,543
Accounts receivable—related parties (total carrying amount)	14	1,205	734
Less: loss allowance	-	-	-
Subtotal	14	1,205	734
Total	\$3,875,024	\$3,771,826	\$1,752,277

Accounts receivable were not pledged.

Accounts receivable are generally on 30-90 day terms. The total carrying amount of trade receivable as of June 30, 2021, December 31, 2020 and June 30, 2020 were \$3,885,171 thousand, \$3,786,976 thousand and \$1,763,478 thousand, respectively. Please refer to Note 6(18) for more details on loss allowance of accounts receivable for the six-month periods ended June 30, 2021 and 2020. Please refer to Note 12 for more details on credit risk management.

(6) Inventories

	As of		
	June 30, 2021	December 31, 2020	June 30, 2020
Raw materials	\$826,230	\$636,369	\$278,548
Work in progress	1,290,830	993,803	707,996
Finished goods	544,186	632,409	240,711
Goods	109,193	6,008	7,471
Inventories in transit	458,124	633,988	220,756
Total	\$3,228,563	\$2,902,577	\$1,455,482

For the three-month periods ended June 30, 2021 and 2020, the Group recognized \$4,672,065 thousand and \$2,081,392 thousand, respectively, in operating cost, including the write-down of inventories of \$17,679 thousand and \$23,734 thousand, respectively.

For the six-month periods ended June 30, 2021 and 2020, the Group recognized \$9,064,632 thousand and \$4,843,476 thousand, respectively, in operating cost, including the write-down of inventories of \$16,638 thousand and \$36,601 thousand, respectively.

No inventories were pledged.

(7) Investment accounted for using equity method

The following table lists the investments accounted for using the equity method of the Group:

Investees	As of					
	June 30, 2021		December 31, 2020		June 30, 2020	
	Carrying	Percentage of (%)	Carrying	Percentage of (%)	Carrying	Percentage of (%)
Investments in associates:						
Digital-Can Technology Co., Ltd.	\$19,410	9.93	\$20,857	9.93	\$20,964	9.93

The Group's investment in Digital-Can Technology Co., Ltd. is not individually material. The aggregate carrying amount of the Group's interests in Digital-Can Technology Co., Ltd. is \$19,410 thousand, \$20,857 thousand and \$20,964 thousand as of June 30, 2021, December 31, 2020 and June 30, 2020. The aggregate financial information of the Group's investments is as follows:

	For the three-month periods ended June 30,		For the six-month periods ended June 30,	
	2021	2020	2021	2020
Profit or loss from continuing operations	\$(656)	\$(506)	\$(1,447)	\$(1,333)

Decommissioning, restoration and rehabilitation

A provision has been recognized for decommissioning costs associated with a factory owned by subsidiary. The Group is committed to restore the site as was when decommissioning the site.

Other long-term provision

According to the management's judgement and other known reasons, the expected employee occupational injury expenses were recognized as miscellaneous expense and estimated related provisions.

(16)Equities

A. Common stock

The Company's authorized capital were both \$3,000,000 thousand as of June 30, 2021, December 31, 2020 and June 30, 2020. The Company's issued capital were both \$1,310,300 thousand as of June 30, 2021, December 31, 2020 and June 30, 2020, each at a par value of \$10. Each share has one voting right and a right to receive dividends.

B. Capital surplus

	As of		
	June 30, 2021	December 31, 2020	June 30, 2020
Additional paid-in capital	\$1,515,684	\$1,515,684	\$1,515,684
Difference between consideration given/ received and carrying amount of interests in subsidiaries acquired/disposed of	75,872	75,872	75,872
Expired employee stock warrants	72,802	72,802	72,802
Total	\$1,664,358	\$1,664,358	\$1,664,358

According to the Company Act, the capital reserve shall not be used except for making good the deficit of the company. When a company incurs no loss, it may distribute the capital reserves related to the income derived from the issuance of new shares at a premium or income from endowments received by the company. The distribution could be made in cash or in the form of dividend shares to its shareholders in proportion to the number of shares being held by each of them.

C. Retained earnings and dividend policies

According to the Company's Articles of Incorporation, current year's earnings, if any, shall be distributed in the following order:

- (a) Payment of all taxes and dues;
- (b) Offset prior years' operation losses;
- (c) Set aside 10% of the remaining amount after deducting items (a) and (b) as legal reserve;
- (d) Set aside or reverse special reserve in accordance with law and regulations; and
- (e) The distribution of the remaining portion, if any, will be recommended by the Board of Directors and resolved in the shareholders' meeting.

The policy of dividend distribution should reflect factors such as the current and future investment environment, fund requirements, domestic and international competition and capital budgets; as well as the interest of the shareholders, share bonus equilibrium and long-term financial planning etc. The Board of Directors shall make the distribution proposal annually and present it at the shareholders' meeting. The Company's Articles of Incorporation further provide at least 10% of the dividends must be paid in the form of cash.

According to the Company Act, the Company needs to set aside amount to legal reserve unless where such legal reserve amounts to the total paid-in capital. The legal reserve can be used to make good the deficit of the Company. When the Company incurs no loss, it may distribute the portion of legal reserve which exceeds 25% of the paid-in capital by issuing new shares or by cash in proportion to the number of shares being held by each of the shareholders.

When the Company distributes distributable earnings, it shall set aside supplemental special reserve based on the difference between the amount already set aside and other net deductions from shareholders' equity, provided that the Company has already set aside special reserve according to the requirements for the adoption of IFRS. For any subsequent reversal of other net deductions from shareholders' equity, the amount reversed may be distributed from the special reserve.

On 31 March 2021, the FSC issued Order No. Financial-Supervisory-Securities-Corporate-1090150022, which sets out the following provisions for compliance:

On a public company's first-time adoption of the TIFRS, for any unrealized revaluation gains and cumulative translation adjustments (gains) recorded to shareholders' equity that the company elects to transfer to retained earnings by application of the exemption under IFRS 1, the company shall set aside an equal amount of special reserve. For any subsequent reversal of other net deductions from shareholders' equity, the amount reversed may be distributed.

On first-time adoption of the TIFRS, the Company's special reserve amounted to \$112,383 thousand as of the six-month periods ended June 30, 2021 and 2020. Following the Company's adoption of the TIFRS for the preparation of its financial reports, when distributing distributable earnings, it shall set aside to special reserve, from the profit/loss of the current period and the undistributed earnings from the previous period, an amount equal to other net deductions from shareholders' equity are both \$0 as of the six-month periods ended June 30, 2021 and 2020, respectively. The Company did not reverse special reserve to retained earnings for the period ended June 30, 2021 and 2020 as a result of the use, disposal of or reclassification of related assets.

The Company's 2021 shareholders' meeting was postponed due to the impact of Covid-19 outbreak (expected to be held on August 11, 2021), and the related surplus allocation and distribution proposals have reached the statutory resolution threshold by electronic voting by June 30. In addition, the regular shareholder's meeting was held on June 23, 2020. At the meetings, the 2020 and 2019 earnings allocation and distribution case and dividend per share have been determined as follows:

	Appropriation of earnings		Dividend per share (\$)	
	2020	2019	2020	2019
Legal reserve	\$111,063	\$217,630		
Special reserve	35,065	135,084		
Common stock -cash dividend	864,798	1,048,240	\$6.6	\$8.0

Please refer to Note 6(20) for details on employees' compensation and remuneration to directors and supervisors.

D. Non-controlling interests

	For the six-month periods ended June 30,	
	2021	2020
Beginning balance	\$648,726	\$328,246
Net gains attributable to non-controlling interests	66,434	16,891
Other comprehensive income, attributable to non-controlling interests, net of tax:		
Exchange differences resulting from translating the financial statements of a foreign operation	(9,018)	(8,885)
Others	(22,247)	-
Ending balance	\$683,895	\$336,252

(17) Operating revenue

A. Disaggregation of revenue

	For the three-month periods ended June 30,		For the six-month periods ended June 30,	
	2021	2020	2021	2020
Revenue from contracts with customers				
Sale of goods	\$5,801,933	\$2,554,888	\$11,472,185	\$6,130,615
Other revenue	200,571	5,842	331,120	56,370
Total	<u>\$6,002,504</u>	<u>\$2,560,730</u>	<u>\$11,803,305</u>	<u>\$6,186,985</u>

B. The Group recognizes contract revenue which is at a point in time.

(18)Expected credit (losses)/gains

	For the three-month periods ended June 30,		For the six-month periods ended June 30,	
	2021	2020	2021	2020
Operating expenses – Expected credit gains/(losses)				
Accounts receivables	<u>\$592</u>	<u>\$(2,817)</u>	<u>\$(672)</u>	<u>\$1,317</u>

Please refer to Note 12 for more details on credit risk.

The credit risk for the Group's financial assets measured at amortized cost are assessed as low (the same as the assessment result in the beginning of the period). Since the transaction objects of the company are all financial institutions such as banks with good credit, all of them are calculated based on the expected credit loss rate of 0% and the allowance loss amount is \$0.

The Group measures the loss allowance of its accounts receivable (including notes receivables and accounts receivable) at an amount equal to lifetime expected credit losses. The assessment of the Group's loss allowance as of June 30, 2021, December 31, 2020 and June 30, 2020 are as follow:

Considering counterparties credit rating, industry characteristics and past experiences, the loss allowance of accounts receivable is measured as a single group by using a provision matrix. Details for provision matrix are as follow:

As of June 30, 2021

	Not yet due (Note)	Overdue			Total
		Under 60 days	61~180 days	Over 181 days	
Gross carrying amount					\$3,885,171
Loss ratio					0.1827%
Lifetime expected credit losses					(7,098)
Net carrying amount	<u>\$3,505,995</u>	<u>\$352,212</u>	<u>\$11,384</u>	<u>\$8,482</u>	<u>\$3,878,073</u>

As of December 31, 2020

	Not yet due (Note)	Overdue			Total
		Under 60 days	61~180 days	Over 181 days	
Gross carrying amount					\$3,786,976
Loss ratio					0.1714%
Lifetime expected credit losses					(6,489)
Net carrying amount	<u>\$3,511,723</u>	<u>\$264,474</u>	<u>\$4,290</u>	<u>\$-</u>	<u>\$3,780,487</u>

As of June 30, 2020

	Not yet due (Note)	Overdue			Total
		Under 60 days	61~180 days	Over 181 days	
Gross carrying amount					\$1,763,478
Loss ratio					0.2768%
Lifetime expected credit losses					(4,881)
Net carrying amount	<u>\$1,560,477</u>	<u>\$195,161</u>	<u>\$2,959</u>	<u>\$-</u>	<u>\$1,758,597</u>

Note: The Group's note receivables are not overdue.

The movement in the provision for impairment of notes receivables and accounts receivable during the six-month periods ended June 30, 2021 and 2020 is as follows:

	Notes receivables	Accounts receivable
As of January 1, 2021	\$-	\$6,489
Addition for the current period	-	672
Exchange differences	-	(63)
As of June 30, 2021	<u>\$-</u>	<u>\$7,098</u>
As of January 1, 2020	\$-	\$6,257
Reversal for the current period	-	(1,317)
Exchange differences	-	(59)
As of June 30, 2020	<u>\$-</u>	<u>\$4,881</u>

(19)Leases

A. Group as a lessee

The Group leases various properties, including real estate such as land and buildings, machinery and equipment and other equipment. The lease terms range from 1 to 13 years. The Group is not subject to any special restrictions.

The Group's leases effect on the financial position, financial performance and cash flows are as follows:

(a) Amounts recognized in the balance sheet

i. Right-of-use assets

The carrying amount of right-of-use assets

	As of		
	June 30, 2021	December 31, 2020	June 30, 2020
Land	\$98,301	\$100,015	\$99,758
Buildings	244,041	282,618	287,674
Total	<u>\$342,342</u>	<u>\$382,633</u>	<u>\$387,432</u>

During the three-month and six-month periods ended June 30, 2021, the Group's additions to right-of-use assets amounting to \$0 and \$1,008 thousand, respectively, and during the three-month and six-month periods ended June 30, 2020, the Group's additions to right-of-use assets amounting to \$7,480 thousand and \$25,608 thousand, respectively.

ii. Lease liabilities

	As of		
	June 30, 2021	December 31, 2020	June 30, 2020
	\$252,299	\$287,042	\$288,495
Lease liabilities			
Current	\$70,302	\$68,767	\$61,271
Non-current	181,997	218,275	227,224
Total	\$252,299	\$287,042	\$288,495

Please refer to Note 6(21) for the interest on lease liabilities recognized during the three-month and six-month periods ended June 30, 2021 and 2020 and refer to Note 12(5) Liquidity Risk Management for the maturity analysis for lease liabilities in June 30, 2021, December 31, 2020, and June 30, 2020.

(b) Amounts recognized in the statement of profit or loss

Depreciation charge for right-of-use assets

	For the three-month periods ended June 30,		For the six-month periods ended June 30,	
	2021	2020	2021	2020
	\$1,185	\$872	\$2,375	\$1,758
Land				
Buildings	18,580	18,198	37,172	36,291
Total	\$19,765	\$19,070	\$39,547	\$38,049

(c) Income and costs relating to leasing activities

	For the three-month periods ended June 30,		For the six-month periods ended June 30,	
	2021	2020	2021	2020
	\$7,915	\$692	\$15,897	\$4,932
The expenses relating to leases of low-value assets (Including the expenses relating to short-term leases of low-value assets)				

For the rent concession arising as a direct consequence of the COVID -19 pandemic, the Group elected not to assess whether it is a lease modification but accounted for it as a variable lease payment. The Group has applied the practical expedient to the classification of the lease related to both \$0 thousand for the three-month and six-month periods ended June 30, 2021 and both \$736 thousand for the three-month and six-month periods ended June 30, 2020. Please refer to Note 6 (21) for more details.

(d) Cash outflow relating to leasing activities

During the three-month and six-month periods ended June 30, 2021, the Group's total cash outflows for leases amounting to \$27,057 thousand and \$54,246 thousand, respectively, and during the three-month and six-month periods ended June 30, 2020, the Group's total cash outflows for leases amounting to \$17,838 thousand and \$39,714 thousand, respectively.

(e) Other information relating to leasing activities

Some of the Group's agreements contain extension and termination options. In determining the lease terms, the non-cancellable period for which the Group has the right to use an underlying asset, together with both periods covered by an option to extend the lease if the Group is reasonably certain to exercise that option and periods covered by an option to terminate the lease if the Group is reasonably certain not to exercise that option. These options are used to maximize operational flexibility in terms of managing contracts. The majority of extension and termination options held are exercisable only by the Group.

After the commencement date, the Group reassesses the lease term upon the occurrence of a significant event or a significant change in circumstances that is within the control of the lessee and affects whether the Group is reasonably certain to exercise an option not previously included in its determination of the lease term, or not to exercise an option previously included in its determination of the lease term.

B. Group as a lessor

The Group's leases of self-own investment properties are classified as operating leases as they do not transfer substantially all the risks and rewards incidental to ownership of underlying assets.

	For the three-month periods ended June 30, 2021		For the six-month periods ended June 30, 2021	
Lease income for operating leases				
Income relating to fixed lease payments	\$3,159	\$-	\$6,336	\$-

For operating leases entered by the Group, the undiscounted lease payments to be received and a total of the amounts for the remaining years as of June 30,2021, December 31,2021 and June 30,2020 are as follow:

	As of		
	June 30, 2021	December 31, 2020	June 30, 2020
			\$-
Not later than one year	\$12,672	\$12,450	\$-
Later than one year and not later than five years	15,841	21,788	-
Later than five years	-	-	-
Total	\$28,513	\$34,238	\$-

(20)Summary statement of employee benefits, depreciation and amortization expenses by function:

	For the three-month periods ended June 30,					
	2021			2020

Amortization	1,905	20,787	22,692	1,064	4,801	5,865

According to the Articles of Incorporation, 2% of profit of the current year is distributable as employees' compensation and no higher than 0.5% of profit of the current year is distributable as remuneration to directors and supervisors. However, the company's accumulated losses shall have been covered. The Company may, by a resolution adopted by a majority vote at a meeting of Board of Directors attended by two-thirds of the total number of directors, have the profit distributable as employees' compensation in the form of shares or in cash; and in addition thereto a report of such distribution is submitted to the shareholders' meeting. If the Board of Directors subsequently modifies the estimates significantly, the company will recognize the change as an adjustment in the profit or loss in the subsequent period. Information on the Board of Directors' resolution regarding the employees' compensation and remuneration to directors and supervisors can be obtained from the "Market Observation Post System" on the website of the TWSE.

Based on profit of the six-month period ended June 30, 2021, the Company estimated the amounts of the employees' compensation and remuneration to directors and supervisors for the six-month period ended June 30, 2021 to be 2% of profit of the current six-month periods and 0.05 % of profit of the current six-month period, respectively, recognized as employee benefits expense. As such, employees' compensation and remuneration to directors for the three-month and six-month periods ended June 30, 2021 amount to \$14,086 thousand and \$375 thousand, \$30,567 thousand and \$750 thousand, respectively and recognized as salaries expense.

Based on profit of the six-month period ended June 30, 2020, the Company estimated the amounts of the employees' compensation and remuneration to directors and supervisors for the six-month period ended June 30, 2020 to be 3.45% of profit of the current six-month periods and 0.11% of profit of the current six-month period, respectively, recognized as employee benefits expense. As such, employees' compensation and remuneration to directors for the three-month and six-month periods ended June 30, 2020 amount to \$11,297 thousand and \$375 thousand, \$22,594 thousand and \$750 thousand, respectively and recognized as salaries expense.

A resolution was passed at a Board of Directors meeting held on March 24, 2021 to distribute \$41,422 thousand and \$1,500 thousand in cash as employees' compensation and remuneration to directors of 2020, respectively. No material differences exist between the estimated amount and the actual distribution of the employee compensation and remuneration to directors and supervisors for the year ended December 31, 2020.

No material differences exist between the estimated amount and the actual distribution of the employee compensation and remuneration to directors and supervisors for the year ended December 31, 2019.

(21)Non-operating income and expenses

A. Interest income

	For the three-month periods ended June 30,		For the six-month periods ended June 30,

(23) Income tax

The major components of income tax expense (income) are as follows:

Income tax expense (income) recognized in profit or loss

	For the three-month periods ended June 30, 2021	For the six-month periods ended June 30, 2021	For the three-month periods ended June 30, 2020	For the six-month periods ended June 30, 2020
Current income tax expense (income):				
Current income tax charge	\$180,102	\$96,544	\$335,818	\$170,310
Adjustments in respect of current income tax of prior periods	(8,103)	(37,243)	(9,220)	(44,186)
Deferred tax expense (income):				
Deferred tax expense (income) relating to origination and reversal of temporary differences	485	564	(7,099)	7,966
Total income tax expense	<u>\$172,484</u>	<u>\$59,865</u>	<u>\$319,499</u>	<u>\$134,090</u>

The assessment of income tax returns

As of June 30, 2021, the assessment of the income tax returns of the Company and its subsidiaries is as follows:

The assessment of income tax returns	
The Company	Assessed and approved up to 2018

The Company and the tax authority could not agree on the goodwill amortization in the Company's income tax returns from 2010 to 2015. The Company filed for administrative relief and has paid half of the taxable amount pursuant to relevant regulations. The unpaid amounts have been recognized as liabilities. The tax authority requested relevant competent authorities to prohibit land transfer registration or creation of other rights concerning certain pieces of land. The carrying amounts of restricted land both amounted to \$18,724 thousand as of June 30, 2021, December 31, 2020 and June 30, 2020. The Company retained attorneys to work on the case and the Company's operations, finances and business remained normal and were not affected by the case.

(24) Earnings per share

Basic earnings per share amounts are calculated by dividing net profit for the year attributable to ordinary equity holders of the parent entity by the weighted average number of ordinary shares outstanding during the year.

Diluted earnings per share amounts are calculated by dividing the net profit attributable to ordinary equity holders of the parent entity (after adjusting for interest on the convertible preference shares) by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

	For the three-month periods ended June 30, 2021		For the six-month periods ended June 30, 2021	
A. Basic earnings per share				
Profit attributable to ordinary equity holders of the Company (in thousands)	\$570,322	\$79,529	\$1,335,012	\$509,568
Weighted average number of ordinary shares outstanding for basic earnings per share (in thousands)	131,030	131,030	131,030	131,030
Basic earnings per share (NT\$)	\$4.35	\$0.61	\$10.19	\$3.89

	For the three-month periods ended June 30,	For the six-month periods ended June 30,
B. Diluted earnings per share		
Profit attributable to ordinary equity holders of the Company (in thousands)	<u>\$570,322</u>	<u>\$79,529</u> <u>\$1,335,012</u> <u>\$509,568</u>
Weighted average number of ordinary shares outstanding for basic earnings per share (in thousands)	131,030	131,030 131,030 131,030
Effect of dilution:		
Employee compensation—stock (in thousands)	146	69 308 520
Weighted average number of ordinary shares outstanding after dilution (in thousands)	<u>131,176</u>	<u>131,099</u> <u>131,338</u> <u>131,550</u>
Diluted earnings per share (NT\$)	<u>\$4.35</u>	<u>\$0.61</u> <u>\$10.16</u> <u>\$3.87</u>

There have been no other transactions involving ordinary shares or potential ordinary shares between the reporting date and the date of completion of the financial statements.

(25) Business combinations

Acquisition of Minson Integration, Inc. and its subsidiaries

In 2020, the Company intended to acquire the sporting goods division of Min Shun Enterprise Co., Ltd., the sporting goods and equipment division of Min Yang Co., Ltd. (hereinafter referred to as the "Acquired Business"), and the equity of four Thai companies. (namely: MINTECH ENTERPRISES COMPANY LIMITED, MINSON ENTERPRISES (THAILAND) COMPANY LIMITED, MINONE ENTERPRISES COMPANY LIMITED and MENXON ENTERPRISES (THAILAND) COMPANY LIMITED) (hereinafter referred to as the "Acquired Companies ") (The "Acquired Business" and "Acquired Companies" are collectively referred to as "Acquisition Target"). According to the agreement between the Company and the seller of said Acquisition Target, the seller shall establish Minson Integration, Inc. and sell the Acquired Business to Minsheng Integration, Inc., will purchase the Acquired Companies from the seller. Later the Company will take part in the cash capital increase of Minson Integration, Inc. and purchase the shares of Minson Integration, Inc. owned by the seller. As a result, the Company's ownership in Minson Integration, Inc. would reached 85% when the merger and acquisition is completed.

The Company set November 30, 2020 as the acquisition date, and measured the identifiable assets acquired and liabilities assumed based on the fair value on that day.

The Group elected to measure the non-controlling interest in Minson Integration, Inc. and its subsidiaries at the non-controlling interest's proportionate share of the acquiree's identifiable net assets.

The fair values of the identifiable assets and liabilities of the Acquired Target on the acquisition date are as follows:

	Fair value recognized on acquisition
Cash and cash equivalents	\$777,371
Accounts receivable, net	310,874
Other receivable	10,772
Inventories	371,688
Prepayments	25,607
Other current assets	2,847
Refundable deposits	1,551
Other assets — others	4,479
Deferred tax assets	2,070
Property, plant and equipment	1,147,042
Intangible assets	197,050
Identifiable net assets	<u>2,851,351</u>
Short-term loans	(213,981)
Notes payable	(133)
Accounts payable	(242,834)
Other payables	(1,001,623)
Accrued expenses	(81,236)
Advance payment	(10,208)
Other current liabilities	(721)
Other liabilities	<u>(108,847)</u>
Total assumed liabilities	<u>(1,659,583)</u>
Total identifiable net assets at fair value	<u><u>\$1,191,768</u></u>

Goodwill of Minson Integration, Inc. and its subsidiaries is as follows:

	Amount
Cash consideration (after adjusting initial price \$28,900 thousand)	\$1,331,100
Add: non-controlling interests(after adjusting initial price \$5,100 thousand)	234,900
Less: identifiable net assets at fair value	<u>(1,191,768)</u>
Goodwill	<u><u>\$374,232</u></u>

Cash flows on acquisition:

	Amount
Net cash acquired with the subsidiary	\$777,371
Cash paid (after adjusting initial price \$28,900 thousand)	<u>(1,331,100)</u>
Net cash outflow	<u><u>\$(553,729)</u></u>

The initial cash consideration paid by the Group was \$1,360,000 thousand in 2020, which was based on what is stated in the equity purchase and sale agreement. The amount of actual working capital in the balance sheet on the delivery date (November 30, 2020) after deducting the normal working capital level has been agreed by both parties (which was NTD\$350,000 thousand) (Hereinafter referred to as "working capital adjustment"). The amount is the basis to determine the initial price. After the working capital adjustment on the delivery date is determined, if it is within plus or minus 3% (inclusive) of the above normal working capital level, the initial price remains unchanged. However, if it exceeds plus or minus 3%, the initial price will fully reflect the increase/decrease of the working capital adjustment. Said working capital is calculated based on all assets (excluding fixed assets and intangible assets) on the balance sheet on the delivery date after deducting all liabilities (excluding debts due to share payments).

The initial price mentioned above was adjusted on April 30, 2021 as agreed by both the buyer and the seller. The adjusted price was \$34,000 thousand. The Group received a refund of \$28,900 thousand according to 85% shareholding of the year, of which \$5,100 thousand received with 15% shareholding percentage was recorded under changes in non-controlling interests. The Group paid \$1,331,100 thousand for the net cash consideration due to the business combination.

Goodwill is expected to result from the comprehensive effect of the acquisition.

When the Group was planning to acquire Minson Integration, Inc. and its subsidiaries, the equity value analysis information used to determine the acquisition price was based on the company's financial forecast from the second half of 2020 to 2025. Therefore, whether there is a significant difference between the expected benefits after the acquisition and the actual operation is explained by the achievement of the related operating income during the financial forecast period. After the acquisition, the actual operating income of the related cash-generating units continued to be profitable. Among them, the actual operating income of the fourth quarter of 2020 and the first two quarters of 2021 reached 100% and 120% of the expected operating income, respectively.

7. Related party transactions

Information of related parties that had transactions with the Group during the financial reporting periods is as follows:

Name of the related parties	Nature of relationship of the related parties
Fusheng Curtis Direct	Substantive related party
Fu Sheng Industrial CO., Ltd.	Substantive related party
Fusheng Electronics Corporation	Substantive related party
Fu Sheng Industrial (Shanghai) Co., Ltd.	Substantive related party
Zhong Shan Fu Sheng Electromechanical Co., Ltd.	Substantive related party
Worldmark Service Ltd.	Substantive related party
Well Base International Limited	Substantive related party
Min Yang Co., Ltd.	Substantive related party
Fu Sheng (Vietnam) Industrial Co., Ltd	Substantive related party
FS-Elliott Co. LLC	Substantive related party
California Air Compressor Company	Substantive related party

(1) Sales

	For the three-month periods ended June 30,		For the six-month periods ended June 30,	
	2021	2020	2021	2020
Fu Sheng Industrial CO., Ltd.	\$-	\$19	\$37	\$1,498
Others	-	-	86	2
Total	\$-	\$19	\$123	\$1,500

The sales price to the above related parties was determined through mutual agreement based on the market rates. The collection period for domestic sales to related parties was month-end 90 days, while the terms for overseas sales were 30~120 days from FOB shipping point. The collection period for third party domestic sales was month-end 30~60 days, while the terms for overseas sales were 30~90 days from FOB shipping point. The outstanding balance on June 30, 2021 and 2020 was unsecured, non-interest bearing and must be settled in cash. The receivables from the related parties were not guaranteed.

(2) Accounts receivable

	As of		
	June 30, 2021	December 31, 2020	June 30, 2020
Fu Sheng Industrial CO., Ltd.	\$14	\$1,205	\$734
Total	\$14	\$1,205	\$734

(3) Accounts payable

	As of		
	June 30, 2021	December 31, 2020	June 30, 2020
Fu Sheng (Vietnam) Industrial Co., Ltd	\$3,613	\$-	\$-
Others	72	925	1,281
Total	\$3,685	\$925	\$1,281

(4) Lease-related parties

A. Rent Income

	For the three-month periods ended June 30,		For the six-month periods ended June 30,	
	2021	2020	2021	2020
Worldmark Service Ltd.	\$-	\$580	\$-	\$1,161
Fusheng Curtis Direct	411	407	824	733
Others	-	-	-	232
Total	\$411	\$987	\$824	\$2,126

The rental income is generated from leasing the plant to related parties. The transaction conditions are agreed upon by both parties, and the rent is paid monthly.

B. Right-of-use assets

	As of		
	June 30, 2021	December 31, 2020	June 30, 2020
Zhong Shan Fu Sheng Electromechanical Co., Ltd.	\$21,168	\$25,369	\$29,320
Min Yang Co., Ltd.	11,745	-	-
Total	\$32,913	\$25,369	\$29,320

C. Lease liabilities

	As of		
	June 30, 2021	December 31, 2020	June 30, 2020
Zhong Shan Fu Sheng Electromechanical Co., Ltd.	\$12,860	\$14,522	\$15,446
Min Yang Co., Ltd.	11,774	-	-
Total	\$24,634	\$14,522	\$15,446

D. Interest Expense

	For the three-month periods ended June 30,		For the six-month periods ended June 30,	
	2021	2020	2021	2020
Zhong Shan Fu Sheng Electromechanical Co., Ltd.	\$163	\$182	\$332	\$392
Min Yang Co., Ltd.	31	-	64	-
Total	\$194	\$182	\$396	\$392

E. Depreciation

	For the three-month periods ended June 30,		For the six-month periods ended June 30,	
	2021	2020	2021	2020
Zhong Shan Fu Sheng Electromechanical Co., Ltd.	\$2,107	\$1,968	\$4,156	\$4,046

Worldmark Service Ltd.	\$540	\$-	\$1,083	\$-
Others	108	-	219	-
Total	<u>\$648</u>	<u>\$-</u>	<u>\$1,302</u>	<u>\$-</u>

Other income consists mainly of management service income, which is the fixed service income received monthly as a result of the Group's administration services provided to related parties.

(6) Property transaction

A. Purchase of Property, plant and equipment

Related party	Item of asset	For the three-month periods ended June 30,		For the six-month periods ended June 30,	
		2021	2020	2021	2020
Zhong Shan Fu Sheng					
Electromechanical Co., Ltd.	Construction in progress	\$34,768	\$-	\$120,992	\$-
Fu Sheng Industrial CO., Ltd. etc.	Machinery and equipment	7,633	2,840	8,913	2,840
Total		<u>\$42,401</u>	<u>\$2,840</u>	<u>\$129,905</u>	<u>\$2,840</u>

The above purchase price was negotiated by the buyer and the seller. For the description of the construction in progress transaction with the related party - Zhong Shan Fu Sheng Electromechanical Co., Ltd., please refer to Note 9.

B. Zhong Shan Aubo Precision Technology Co., Ltd. entered into an assignment contract with the related party, Zhong Shan Fu Sheng Electromechanical Co., Ltd., on August 21, 2019, to transfer land tenure right and the buildings located on Huo-ju Road, Zhongshan Torch High-tech Industrial Development Zone, Zhongshan, Guangdong Province, China. Please refer to Note 9.

(7) Key management personnel compensation

	For the three-month periods ended June 30,		For the six-month periods ended June 30,	
	2021	2020	2021	2020
	Short-term employee benefits	\$16,205	\$18,154	\$32,011

8. Assets pledged as security

Except as mentioned in Note 6(23), the following table lists assets of the Group pledged as security:

Items	Carrying amount			
	June 30, 2021	December 31, 2020	June 30, 2020	Secured liabilities
Financial assets measured at amortized cost	\$15,000	\$15,000	\$15,000	Gas guarantee
Financial assets measured at amortized cost	14,700	14,700	-	Performance bond
Property, plant and equipment—Land	59,917	64,984	-	Short-term loans
Property, plant and equipment—Buildings	99,145	114,116	-	Short-term loans
Total	\$188,762	\$208,800	\$15,000	

9. Commitments and contingencies

(1) As of June 30, 2021, the Group has the following unused letters of credit:

Currency	Amount (in dollar)
JPY	\$86,092,700
USD	\$2,850,000

(2) Please refer to Attachment 2 for information of guarantees for related parties.

(3) Financial institution commitments:

Financial institution	Purpose of guarantee	Amount
Bank Sinopac Co. Ltd.	Customs Duty Guarantee	\$3,000
Bangkok Bank Public Company Limited	Electricity Usage Guarantee	12,769
		\$15,769

(4) Significant unpaid commitments:

Contract	Contract amount	Payment amount	Unpaid amount
Machinery and equipment,etc.	<u>\$91,469</u>	<u>\$47,518</u>	<u>\$43,951</u>

(5) Zhong shan Aobo Precision Technology Co., Ltd., a subsidiary of the Company, passed the resolution in its board meeting on August 21, 2019 in response to the demand for additional factory to acquire from a substantial related party, Zhong Shan Fu Sheng Electromechanical Co., Ltd., the land tenure right and its buildings located on Huo-ju Road, Zhongshan Torch High-tech Industrial Development Zone, Zhongshan, Guangdong Province, China at RMB 48,629 thousand, equivalent to approximately \$219,000 thousand. Both parties completed the execution of the assignment contract on the same day. According to the contract between the two parties, the aforementioned transaction amount will be paid in installments in accordance with the schedule of the transfer registration of the land tenure right and the buildings. As of June 30, 2021, the aforementioned transaction has not yet been transferred.

(6) In order to comply with local laws and regulations in Zhongshan City, Guangdong Province, China, when the plot ratio of the land is less than 25%, the land cannot be transferred. Therefore, Zhongshan Aobo Precision Technology Co., Ltd., a subsidiary of the Company, appointed a related party -Zhongshan Fusheng Electromechanical Co., Ltd. to engage a contractor to build industrial plants on the premises with the total contract price of RMB 33,300 thousand, and paid related administrative expenses. As of June 30, 2021, the project has not been completed. A payment of RMB 28,085 thousand has been made, equivalent to approximately \$120,992 thousand.

10. Losses due to major disasters: None.

11. Significant subsequent events:

The Company intended to dispose of Digital-Can Technology Co., Ltd.'s 9.93% equity at \$24,066 thousand due to the investment strategy consideration, which was accounted for using the equity method. In response to the transaction schedule planned by both sides, the Company received consent from the board members and signed the equity sale and purchase contract on July 20, 2021. The board meeting confirmed the resolution on July 27, 2021.

12. Others

(1) Categories of financial instruments

Financial assets

	As of		
	June 30, 2021	December 31, 2020	June 30, 2020
Financial assets at fair value through profit or loss:			
Designated at fair value through profit or loss	\$232,104	\$235,424	\$217,563

Financial assets measured at amortized cost:			
Cash and cash equivalents (excluding cash on hand)	1,786,087	1,571,060	3,561,912
Financial assets measured at amortized cost	432,338	289,457	17,076
Notes and accounts receivable, net (including related parties)	3,878,073	3,780,487	1,758,597
Other receivables (including related parties)	210,377	210,328	190,835
Refundable deposits	17,575	18,438	6,460
Subtotal	6,324,450	5,869,770	5,534,880
Total	\$6,556,554	\$6,105,194	\$5,752,443

Financial liabilities

	As of		
	June 30, 2021	December 31, 2020	June 30, 2020
Financial liabilities at amortized cost:			
Short-term loans	\$2,044,302	\$2,227,367	\$770,206
Accounts payables (including related parties)	2,657,087	3,017,858	1,109,872
Lease liabilities	252,299	287,042	288,495
Other payables (including related parties)	1,342,720	1,110,312	758,156
Dividends payable	864,798	-	1,048,240
Guarantee deposits	6,107	5,862	3,464
Long-term loans (including current portion with maturity less 1 year)	28,648	30,238	28,994
Other non-current liability	7,887	1,073	10,102
Total	\$7,203,848	\$6,679,752	\$4,017,529

(2) Financial risk management objectives and policies

The Group's principal financial risk management objective is to manage the market risk, credit risk and liquidity risk related to its operating activities. The Group identifies measures and manages the aforementioned risks based on the Group's policy and risk appetite.

The Group has established appropriate policies, procedures and internal controls for financial risk management. Before entering into significant transactions, due approval process by the Board of Directors and Audit Committee must be carried out based on related protocols and internal control procedures. The Group complies with its financial risk management policies at all times.

(3) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of the changes in market prices. Market prices comprise currency risk, interest rate risk and other price risk (such as equity risk).

In practice, it is rarely the case that a single risk variable will change independently from other risk variable, there is usually interdependencies between risk variables. However, the sensitivity analysis disclosed below does not take into account the interdependencies between risk variables.

Foreign currency risk

The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (when revenue or expense are denominated in a different currency from the Group's functional currency) and the Group's net investments in foreign subsidiaries.

The Group has certain foreign currency receivables to be denominated in the same foreign currency with certain foreign currency payables, therefore natural hedge is received. Hedge accounting is not applied as they did not qualify for hedge accounting criteria. Furthermore, as net investments in foreign subsidiaries are for strategic purposes, they are not hedged by the Group.

The foreign currency sensitivity analysis of the possible change in foreign exchange rates on the Group's profit is performed on significant monetary items denominated in foreign currencies as at the end of the reporting period. The Group's foreign currency risk is mainly related to the volatility in the exchange rates for foreign currency USD. The information of the sensitivity analysis is as follows:

When NTD strengthens/weakens against foreign currency USD by 1%, the profit for the six-month periods ended June 30, 2021 and 2020 is decrease/increase by \$34,383 thousand and \$48,554 thousand, respectively.

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's debt instrument investments at variable interest rates, bank borrowings with fixed interest rates and variable interest rates.

The Group manages its interest rate risk by having a balanced portfolio of fixed and variable loans.

The interest rate sensitivity analysis is performed on items exposed to interest rate risk as at the end of the reporting period, including investments and borrowings with variable interest rates. At the reporting date, a change of 10 basis points of interest rate in a reporting period could cause the profit for the six-month periods ended June 30, 2021 and 2020 to decrease/increase by \$2,073 thousand and \$787 thousand, respectively.

Equity price risk

The fair value of the Group's listed equity securities is susceptible to market price risk arising from uncertainties about future values of the investment securities. The Group's listed equity securities is classified under financial assets measured at fair value through profit or loss. The Group manages the equity price risk through diversification and placing limits on individual and total equity instruments.

At the reporting date, a change of 1% in the price of the listed equity securities measured at fair value through profit or loss could increase/decrease the Group's profit for the six-month periods ended June 30, 2021 and 2020 by \$1,786 thousand and \$1,827 thousand, respectively.

Please refer to Note 12(8) for sensitivity analysis information of other equity instruments or derivatives that are linked to such equity instruments whose fair value measurement is categorized under Level 3.

(4) Credit risk management

Credit risk is the risk that a counterparty will not meet its obligations under a contract, leading to a financial loss. The Group is exposed to credit risk from operating activities (primarily for accounts and notes receivables) and from its financing activities, including bank deposits and other financial instruments.

Credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to credit risk management. Credit limits are established for all counter parties based on their financial position, rating from credit rating agencies, historical experience, prevailing economic condition and the Group's internal rating criteria etc. Certain counter parties' credit risk will also be managed by taking credit enhancing procedures, such as requesting for prepayment.

As of June 30, 2021, December 31, 2020 and June 30, 2020, amounts receivables from top ten customers represent 85%, 81% and 89% of the total account receivables of the Group, respectively. The credit concentration risk of other accounts receivables is insignificant.

Credit risk from balances with banks, fixed income securities and other financial instruments is managed by the Group's treasury in accordance with the Group's policy. The Group only transacts with counterparties approved by the internal control procedures, which are banks and financial institutions, companies and government entities with good credit rating. Consequently, there is no significant credit risk for these counter parties.

The Group adopted IFRS 9 to assess the expected credit losses. Except for accounts and notes receivables, the remaining debt instrument investments which are not measured at fair value through profit or loss, low credit risk for these investments is a prerequisite upon acquisition and by using their credit risk as a basis for the distinction of categories.

Financial assets are written off when there is no realistic prospect of future recovery.

When the credit risk on debt instrument investment has increased, the Group will dispose that investment in order to minimize the credit losses. When assessing the expected credit losses, the evaluation of the forward-looking information (available without undue cost and effort) is mainly based on the macroeconomic information and the credit loss ratio is further adjusted if there is significant impact from forward-looking information.

(5) Liquidity risk management

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of cash and cash equivalents, bank borrowings and finance leases. The table below summarizes the maturity profile of the Group's financial liabilities based on the contractual undiscounted payments and contractual maturity. The payment amount includes the contractual interest. The undiscounted payment relating to borrowings with variable interest rates is extrapolated based on the estimated interest rate yield curve as of the end of the reporting period.

Non-derivative financial liabilities

	Less than 1 year	2 to 3 years	4 to 5 years	> 5 years	Total
As of June 30, 2021

(7) Fair values of financial instruments

A. The methods and assumptions applied in determining the fair value of financial instruments:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following methods and assumptions were used by the Group to measure or disclose the fair values of financial assets and financial liabilities:

- (a) The carrying amount of cash and cash equivalents, notes and accounts receivables, accounts payable and other current liabilities approximate their fair value due to their short maturities.
- (b) For financial assets and liabilities traded in an active market with standard terms and conditions, their fair value is determined based on market quotation price (including listed equity securities, beneficiary certificates, bonds and futures etc.) at the reporting date.

- (c) Fair value of equity instruments without market quotations (including private placement of listed equity securities, unquoted public company and private company equity securities) are estimated using the market method valuation techniques based on parameters such as prices based on market transactions of equity instruments of identical or comparable entities and other relevant information (for example, inputs such as discount for lack of marketability, P/E ratio of similar entities and Price-Book ratio of similar entities).
- (d) Fair value of debt instruments without market quotations, bank loans and other non-current liabilities are determined based on the counterparty prices or valuation method. The valuation method uses DCF method as a basis, and the assumptions such as the interest rate and discount rate are primarily based on relevant information of similar instrument (such as yield curves published by the GreTai Securities Market, average prices for Fixed Rate Commercial Paper published by Reuters and credit risk, etc.)
- (e) The fair value of derivatives which are not options and without market quotations, is determined based on the counterparty prices or discounted cash flow analysis using interest rate yield curve for the contract period. Fair value of option-based derivative financial instruments is obtained using on the counterparty prices or appropriate option pricing model (for example, Black-Scholes model) or other valuation method (for example, Monte Carlo Simulation).

B. Fair value of financial instruments measured at amortized cost

The carrying amount of the Group's financial assets and liabilities measured at amortized cost approximate their fair value.

C. Fair value measurement hierarchy for financial instruments

Please refer to Note 12(8) for fair value measurement hierarchy for financial instruments of the Group.

(8) Fair value measurement hierarchy

A. Fair value measurement hierarchy

All asset and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole. Level 1, 2 and 3 inputs are described as follows:

Level 1— Quoted (unadjusted) market prices in active markets for identical assets or liabilities that the entity can access at the measurement date

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 – Unobservable inputs for the asset or liability

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization at the end of each reporting period.

B. Fair value measurement hierarchy of the Group's assets and liabilities

The Group does not have assets that are measured at fair value on a non-recurring basis. Fair value measurement hierarchy of the Group's assets and liabilities measured at fair value on a recurring basis was as follows:

As of June 30, 2021

	Level 1	Level 2	Level 3	Total
Financial assets:				
Financial assets at fair value through profit or loss:				
Preferred stocks	\$178,583	\$-	\$-	\$178,583
Financial products	-	-	51,696	51,696
Unlisted stocks	-	-	1,400	1,400
US dollar aggressive funds	-	-	425	425

As of December 31, 2020

	Level 1	Level 2	Level 3	Total
Financial assets:				
Financial assets at fair value through profit or loss:				
Preferred stocks	\$177,466	\$-	\$-	\$177,466
Financial products	-	-	56,157	56,157
Unlisted stocks	-	-	1,400	1,400
US dollar aggressive funds	-	-	401	401

As of June 30, 2020

	Level 1	Level 2	Level 3	Total
Financial assets:				
Financial assets at fair value through profit or loss:				
Preferred stocks	\$182,697	\$-	\$-	\$182,697
Financial products	-	-	33,136	33,136
Unlisted stocks	-	-	1,400	1,400
US dollar aggressive funds	-	-	330	330

Transfers between Level 1 and Level 2 during the period

During the six-month periods ended June 30, 2021 and 2020, there were no transfers between Level 1 and Level 2 fair value measurements.

Reconciliation for fair value measurements in Level 3 of the fair value hierarchy for movements during the period is as follows:

	Assets
	At fair value through profit or loss
Beginning balances as of January 1, 2021	\$57,958
Acquisition for the six-month period ended June 30, 2021	(4,461)
Amount recognized in gain	24
Ending balances as of June 30, 2021	<u><u>\$53,521</u></u>
Beginning balances as of January 1, 2020	\$1,789
Acquisition for the six-month period ended June 30, 2020	33,136
Amount recognized in loss	(59)
Ending balances as of June 30, 2020	<u><u>\$34,866</u></u>

Total gains and losses recognized in profit or loss for the six-month periods ended June 30, 2021 and 2020 in the table above contain losses related to assets on hand as of June 30, 2021 and 2020 in the amount of \$24 thousand and \$(59) thousand, respectively.

Information on significant unobservable inputs to valuation

Description of significant unobservable inputs to valuation of recurring fair value measurements categorized within Level 3 of the fair value hierarchy is as follows:

- (a) No quantitative information of significant unobservable inputs and sensitivity analysis were available as the fair values of structured investment products and financial products were measured by the unadjusted quotes from transaction counterparties.
- (b) The fair value of unlisted securities is estimated using the market approach valuation techniques based on parameters such as the market transaction prices of comparable companies whose business and industry are similar to the investee's and considering the liquidity discount factor.

Valuation process used for fair value measurements categorized within Level 3 of the fair value hierarchy

The Group's Management Department is responsible for validating the fair value measurements and ensuring that the results of the valuation are in line with market conditions, based on independent and reliable inputs which are consistent with other information, and represent exercisable prices. The Department analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Group's accounting policies at each reporting date.

(9) Significant assets and liabilities denominated in foreign currencies

The above information is disclosed based on book value of foreign currency. The exchange rate was determined with reference to the spot selling exchange rate announced by Anue on June 30, 2021 and Citibank on June 30, 2020 and December 31, 2020.

Since there were various functional currencies used within the subsidiaries of the Group, the Group was unable to disclose foreign exchange gains (losses) towards each foreign currency with significant impact. The realized and unrealized foreign exchange losses was \$(47,114) thousand and \$(20,558) thousand for the three-month and six-month periods ended June 30, 2021, respectively, and was \$(46,518) thousand and \$(14,232) thousand for the three-month and six-month periods ended June 30, 2020, respectively.

(10) Capital management

The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value. The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust dividend payment to shareholders, return capital to shareholders or issue new shares.

(11) Since the outbreak of COVID-19 in January 2020, various countries have implemented community quarantine measures to prevent the spread of the epidemic, and the Group's operations in 2020 was affected by uncontrollable factors, such as the reduction in the number of production days, the shortage of raw material supply in the supply chain, and market demand stagnation, which caused a significant decrease in operating income in the first quarter of 2020, while some operating costs and expenses were fixed expenditures which cannot be reduced proportionately, resulting in a decline in current gross profit and operating income. However, in the first quarter of 2021, the impact of the epidemic gradually slowed down, and the European and American countries have begun to administer vaccines. The overall international consumer market demand has increased, resulting in a simultaneous increase in the Group's operations hence an increase in operating income over the same period last year. Gross profit and operating income have also increased compared with the same period last year. Vision International Co., Ltd. (hereinafter referred to as "Vision"), a subsidiary of the Group, has cooperated with the epidemic prevention policy called "3 in One Spot, and 1 Route 2 Locations" announced by the local government in Binh Duong Province of Vietnam since July 19, 2021. To cooperate with the above policy, Vision proactively conducted Covid-19 mass testing of employees, and then found confirmed cases. After discussion with the related government officials, Vision suspended operation for two weeks on July 23, 2021. The Group will continue to closely monitor the risks and uncertainties that may arise from the epidemic, takes appropriate measures at any time and adjusts its operating activities flexibly. During the shutdown period, the company will ship products continuously and adjust different areas' capacities flexibility depending on demands. This incident has limited impact on the financial and business activities of the Group.

13. Other disclosure

(1) Information at significant transactions

- A. Financing provided to others: Please refer to Attachment 1.
- B. Endorsement/Guarantee provided to others: Please refer to Attachment 2.
- C. Securities held at the end of the period: Please refer to Attachment 3.
- D. Individual securities acquired or disposed of with accumulated amount exceeding \$300 million or 20 percent of the capital stock or more: None.
- E. Acquisition of real estate with amount exceeding \$300 million or 20 percent of the capital stock or more: None.
- F. Disposal of real estate with amount exceeding \$300 million or 20 percent of the capital stock or more: None.

- G. Related party transactions for purchases and sales amounts exceeding \$100 million or 20 percent of the capital stock or more: Please refer to Attachment 4.
- H. Receivables from related parties with amounts exceeding \$100 million or 20 percent of capital stock or more: Please refer to Attachment 5.
- I. Financial instruments and derivative transactions: None.
- J. Others: Business relationship between the parent and the subsidiaries and between each subsidiary, and the circumstances and accounts of any significant transactions between term: Please refer to Attachment 6.

(2) Information on investees

Of the investee company directly or indirectly has significant influence or control over, their investee companies' information: Please refer to Attachment 7.

(3) Information on investments in mainland China (written off as a result of consolidated statements):

- A. The investee company name, main businesses, paid-in capital, type of the investment, capital inflow and outflow, ownership, investment gains and loss, ending balance of investment, repatriation of investment income and the mainland investment limit scenario: Please refer to Attachment 8.
- B. Transactions with the investee companies directly or indirectly through and third country following the occurrence of significant transactions, prices, payment terms and unrealized gains and losses: Please refer to Attachment 9

(4) Information on major shareholders

Shareholder	Share	Number of shares	Percentage of ownership
Grateful Social Welfare Foundation		9,000,000	6.86%
Valiant APO Holdings III Limited		6,754,260	5.15%

14. Segment information

(1) General information

For management purposes, the Group divides operating units based on different products and services, and divides them into the following two reporting operating departments:

- A. Golf Business Segment: This segment is responsible for the manufacturing and sales of golf club head and shafts.
- B. Sports Equipment Business Segment: This segment is responsible for the manufacture and sales of boots, helmets and protective gear for ice hockey, cross-country motorcycles, baseball, skiing and other related sports.

The aforementioned reportable operating department did not summarize more than one operating department.

(2) Segment Information

The management individually monitors the operating results of its business units to formulate decisions on resource allocation and performance evaluation. The performance of the department is evaluated based on pre-tax profit and loss. The reportable department's accounting policies are the same as the general accounting policies of the Group.

Note1 : The Company and its subsidiaries are coded as follows:

- 1.The Company is coded "0".
- 2.Subsidiaries are coded consecutively starting from "1" in the order presented in the table above.

Note 2: The percentage is determined by the ratio of the transaction amount to the consolidated revenues or the total assets. Items on the balance sheet are calculated by the ending balance to total consolidated assets; items on the income statement are calculated by their cumulative balance to the total consolidated income.

Note 3: The above important transactions have been written off as a result of consolidated statements.

Note 4: The disclosure of significant intercompany transactions in this attachment is determined by the company based on the materiality.

Note1 : If a publicly-issued company has a foreign holding company and uses consolidated statements as its main financial statement in accordance with local laws and regulations, the disclosure of information about foreign invested companies may only disclose relevant information to the holding company.

Note2: Those who are not in the situation described in Note 1 should fill in according to the following regulations:

(1)The columns of "Investee company", "Address", "Main business and products", "Initial Investment ", and "Investment as of June 30, 2021" should fill in information of the reinvestment of the listed company, reinvestment of every direct or indirect reinvestment of the investee, and disclose the relationship of the investees with the Company in the Remark column.

(2)The column of "Net income(loss) of investee company" should fill in the current profit and loss of the investees.

(3)The columns of "Investment income (loss) recognized" only require profit/loss of the direct investees and all investees accounted for under the equity method.

When filling in the above items, make sure the profit/loss of direct investee subsidiaries include the profit or loss of their reinvestments that are required to be recognized.

Note3 : It includes the unrealized gross profit of the current and downstream sales.

Note4 : It has been written off as a result of consolidated statements.

Note5 : This period received adjusted original acquisition price of \$28,900 thousand, therefore the original investment amount declined to \$1,331,100 thousand.
