#### **Independent Auditors' Review Report**

To Fusheng Precision Co., Ltd.

#### **Introduction**

We have reviewed the accompanying consolidated balance sheets of Fusheng Precision Co., Ltd. (the “Company”) and its subsidiaries as of June 30, 2024 and 2023, the related consolidated statements of comprehensive income, for the three-month and six-month periods ended June 30, 2024 and 2023 and consolidated statements of changes in equity and cash flows for the six-month periods ended June 30, 2024 and 2023, and notes to the consolidated financial statements, including the summary of significant accounting policies (together “the consolidated financial statements”). Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, “Interim Financial Reporting” as endorsed and became effective by Financial Supervisory Commission of the Republic of China. Our responsibility is to express a conclusion on these consolidated financial statements based on our reviews.

#### **Scope of Review**

We conducted our reviews in accordance with the Standard on Review Engagements 2410, “Review of Financial Information Performed by the Independent Auditor of the Entity” of the Republic of China. A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the Standards on Auditing of the Republic of China and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

## Conclusion

Based on our reviews, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Company and its subsidiaries as of June 30, 2024 and 2023, and their consolidated financial performance for the three-month and six-month periods ended June 30, 2024 and 2023, and their consolidated cash flows for the six-month periods ended June 30, 2024 and 2023, in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, "Interim Financial Reporting" as endorsed and became effective by Financial Supervisory Commission of the Republic of China.

**1. History and organization**

- (1) FuSheng Precision Co., Ltd. (The Company) was established by Coöperatieve Valiant APO Global U.A. on September 14, 2010.
- (2) To work in line with the parent company, Coöperatieve Valiant APO Global U.A., to engage in re-organization and specialization to enhance competitiveness and efficiency of management, the Company's board of directors ("Board of Directors") approved on September 14, 2010 the proposed deal to divide and assign the Sporting Goods Divisions (SGD) and Precision Products Divisions (PPD) of Fu Sheng Industrial CO., Ltd. under "Business Mergers and Acquisitions Act" and "Company Act", effective November 1, 2010. The assets, liabilities, all rights and obligations of SGD and PPD, including the existing factories, equipment and employees, were assigned to the Company upon completion of the division and assignment. The Company will continue to operate its business.
- (3) The Company's first public offering was approved in October 2017 and its shares were first traded on the emerging stock market on November 30, 2017. The Company's common shares were publicly listed on the Taiwan Stock Exchange (TWSE) on December 18, 2018. The Company's registered office and the main business location are at 3F., No. 172. Sec. 2, Nanjing E. Rd., Zhongshan Dist., Taipei City, Taiwan (R.O.C.) and No. 9, Xingzhong St., Taoyuan Dist., Taoyuan City 330, Taiwan (R.O.C.).

**2. Date and procedures of authorization of financial statements for issue**

The consolidated financial statements of the Company and its subsidiaries ("the Group") for the six-month periods ended June 30, 2024 and 2023 were authorized for issue by the Board of Directors on August 13, 2024.

**3. Newly issued or revised standards and interpretations**

- (1) Changes in accounting policies resulting from applying for the first time certain standards and amendments

The Group applied for the first time International Financial Reporting Standards, International Accounting Standards, and Interpretations issued, revised or amended which are recognized by Financial Supervisory Commission ("FSC") and become effective for annual periods beginning on or after January 1, 2024. There are no newly adopted or revised standards and interpretations that have material impact on the Group.

(2) Standards or interpretations issued, revised or amended, by International Accounting Standards Board (“IASB”) which are endorsed by FSC, and not yet adopted by the Group as at the end of the reporting period are listed below.

Items	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
A	Lack of Exchangeability – Amendments to IAS 21	January 1, 2025

A. Lack of Exchangeability – Amendments to IAS 21

These amendments specify whether a currency is exchangeable into another currency and, when it is not, to determining the exchange rate to use and the disclosures to provide.

The abovementioned amendments are applicable for annual periods beginning on or after January 1, 2025 and have no material impact on the Group.

(3) Standards or interpretations issued, revised or amended, by IASB which are not endorsed by FSC, and not yet adopted by the Group as at the end of the reporting period are listed below.

Items	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
A	IFRS 10 “Consolidated Financial Statements” and IAS 28 “Investments in Associates and Joint Ventures” — Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures	To be determined by IASB
B	IFRS 17 “Insurance Contracts”	January 1, 2023
C	IFRS 18 “Presentation and Disclosure in Financial Statements”	January 1, 2027
D	Disclosure Initiative – Subsidiaries without Public Accountability: Disclosures (IFRS 19)	January 1, 2027
E	Amendments to the Classification and Measurement of Financial Instruments – Amendments to IFRS 9 and IFRS 7	January 1, 2026
F	Annual Improvements to IFRS Accounting Standards – Volume 11	January 1, 2026

A. IFRS 10 “Consolidated Financial Statements” and IAS 28 “Investments in Associates and Joint Ventures” — Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures

The amendments address the inconsistency between the requirements in IFRS 10 *Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures*, in dealing with the loss of control of a subsidiary that is contributed to an associate or a joint venture. IAS 28 restricts gains and losses arising from contributions of non-monetary assets to an associate or a joint venture to the extent of the interest attributable to the other equity holders in the associate or joint ventures. IFRS 10 requires full profit or loss recognition on the loss of control of the subsidiary. IAS 28 was amended so that the gain or loss resulting from the sale or contribution of assets that constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized in full.

IFRS 10 was also amended so that the gains or loss resulting from the sale or contribution of a subsidiary that does not constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized only to the extent of the unrelated investors' interests in the associate or joint venture.

#### B. IFRS 17 “Insurance Contracts”

IFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects (including recognition, measurement, presentation and disclosure requirements). The core of IFRS 17 is the General (building block) Model, under this model, on initial recognition, an entity shall measure a group of insurance contracts at the total of the fulfilment cash flows and the contractual service margin. The carrying amount of a group of insurance contracts at the end of each reporting period shall be the sum of the liability for remaining coverage and the liability for incurred claims.

Other than the General Model, the standard also provides a specific adaptation for contracts with direct participation features (the Variable Fee Approach) and a simplified approach (Premium Allocation Approach) mainly for short-duration contracts.

IFRS 17 was issued in May 2017 and it was amended in 2020 and 2021. The amendments include deferral of the date of initial application of IFRS 17 by two years to annual beginning on or after January 1, 2023 (from the original effective date of January 1, 2021); provide additional transition reliefs; simplify some requirements to reduce the costs of applying IFRS 17 and revise some requirements to make the results easier to explain. IFRS 17 replaces an interim Standard – IFRS 4 Insurance Contracts – from annual reporting periods beginning on or after January 1, 2023.

## C. IFRS 18 “Presentation and Disclosure in Financial Statements”

IFRS 18 replaces IAS 1 Presentation of Financial Statements. The main changes are as below:

### (a) Improved comparability in the statement of profit or loss (income statement)

IFRS 18 requires entities to classify all income and expenses within their statement of profit or loss into one of five categories: operating; investing; financing; income taxes; and discontinued operations. The first three categories are new, to improve the structure of the income statement, and requires all entities to provide new defined subtotals, including operating profit or loss. The improved structure and new subtotals will give investors a consistent starting point for analyzing entities' performance and make it easier to compare entities.

### (b) Enhanced transparency of management-defined performance measures

IFRS 18 requires entities to disclose explanations of those entity-specific measures that are related to the income statement, referred to as management-defined performance measures.

### (c) Useful grouping of information in the financial statements

IFRS 18 sets out enhanced guidance on how to organize information and whether to provide it in the primary financial statements or in the notes. The changes are expected to provide more detailed and useful information. IFRS 18 also requires entities to provide more transparency about operating expenses, helping investors to find and understand the information they need.

## D. Disclosure Initiative – Subsidiaries without Public Accountability: Disclosures (IFRS 19)

This standard permits subsidiaries without public accountability to provide reduced disclosures when applying IFRS Accounting Standards in their financial statements. IFRS 19 is optional for subsidiaries that are eligible and sets out the disclosure requirements for subsidiaries that elect to apply it.

## E. Amendments to the Classification and Measurement of Financial Instruments – Amendments to IFRS 9 and IFRS 7

The amendments include:

- (a) Clarify that a financial liability is derecognised on the settlement date and describe the accounting treatment for settlement of financial liabilities using an electronic payment system before the settlement date.
- (b) Clarify how to assess the contractual cash flow characteristics of financial assets that include environmental, social and governance (ESG)-linked features and other similar contingent features.
- (c) Clarify the treatment of non-recourse assets and contractually linked instruments.
- (d) Require additional disclosures in IFRS 7 for financial assets and liabilities with contractual terms that reference a contingent event (including those that are ESG-linked), and equity instruments classified at fair value through other comprehensive income.

#### F. Annual Improvements to IFRS Accounting Standards – Volume 11

##### (a) Amendments to IFRS 1

The amendments mainly improve the consistency in wording between first-time adoption of IFRS and requirements for hedge accounting in IFRS 9.

##### (b) Amendments to IFRS 7

The amendments update an obsolete cross-reference relating to gain or loss on derecognition.

##### (c) Amendments to Guidance on implementing IFRS 7

The amendments improve some of the wordings in the implementation guidance, including the introduction, disclosure of deferred difference between fair value and transaction price and credit risk disclosures.

##### (d) Amendments to IFRS 9

The amendments add a cross-reference to resolve potential confusion for a lessee applying the derecognition requirements and clarify the term “transaction price”.

(e) Amendments to IFRS 10

The amendments remove the inconsistency between paragraphs B73 and B74 of IFRS 10.

(f) Amendments to IAS 7

The amendments remove a reference to “cost method” in paragraph 37 of IAS 7.

The abovementioned standards and interpretations issued by IASB have not yet endorsed by FSC at the date when the Group’s financial statements were authorized for issue, the local effective dates are to be determined by FSC. As the Group is still currently determining the potential impact of the new or amended standards and interpretations listed under A, C, E and F, it is not practicable to estimate their impact on the Group at this point in time. The remaining new or amended standards and interpretations have no material impact on the Group.

#### 4. Summary of material accounting policies

(1) Statement of compliance

According to the Company Act, the capital reserve shall not be used except for making good the deficit of the company. When a company incurs no loss, it may distribute the capital reserves related to the income derived from the issuance of new shares at a premium or income from endowments received by the company. The distribution could be made in cash or in the form of dividend shares to its shareholders in proportion to the number of shares being held by each of them.

## C. Retained earnings and dividend policies

According to the Company's Articles of Incorporation, current year's earnings, if any, shall be distributed in the following order:

- (a) Payment of all taxes and dues;
- (b) Offset prior years' operation losses;
- (c) Set aside 10% of the remaining amount after deducting items (a) and (b) as legal reserve;
- (d) Set aside or reverse special reserve in accordance with law and regulations; and
- (e) The distribution of the remaining portion, if any, will be recommended by the Board of Directors and resolved in the shareholders' meeting.

The policy of dividend distribution should reflect factors such as the current and future investment environment, fund requirements, domestic and international competition and capital budgets; as well as the interest of the shareholders, share bonus equilibrium and long-term financial planning etc. The Board of Directors shall make the distribution proposal annually and present it at the shareholders' meeting. The Company's Articles of Incorporation further provide at least 10% of the dividends must be paid in the form of cash.

According to the Company Act, the Company needs to set aside amount to legal reserve unless where such legal reserve amounts to the total paid-in capital. The legal reserve can be used to make good the deficit of the Company. When the Company incurs no loss, it may distribute the portion of legal serve which exceeds 25% of the paid-in capital by issuing new shares or by cash in proportion to the number of shares being held by each of the shareholders.

When the Company distributes distributable earnings, it shall set aside supplemental special reserve based on the difference between the amount already set aside and other net deductions from shareholders' equity, provided that the Company has already set aside special reserve according to the requirements for the adoption of IFRS. For any subsequent reversal of other net deductions from shareholders' equity, the amount reversed may be distributed from the special reserve.

On March 31, 2021, the FSC issued Order No. Financial-Supervisory-Securities-Corporate-1090150022, which sets out the following provisions for compliance:

On a public company's first-time adoption of the TIFRS, for any unrealized revaluation gains and cumulative translation adjustments (gains) recorded to shareholders' equity that the company elects to transfer to retained earnings by application of the exemption under IFRS 1, the company shall set aside an equal amount of special reserve. For any subsequent reversal of other net deductions from shareholders' equity, the amount reversed may be distributed.

On first-time adoption of the TIFRS, the Company's special reserve amounted to \$112,383 thousand. The Company did not reverse special reserve to undistributed earnings for the six-month periods ended June 30, 2024 and 2023 as a result of the use, disposal of or reclassification of related assets. At the Company's stockholders' meetings held on June 18, 2024 and June 21, 2023, following the Company's first time adoption of the TIFRS, the difference between the balance of the special reserve previously appropriated upon the first adoption of IFRS and the net amount of other equity contra account was additionally appropriated/(reversed) to the special reserve of earnings, in the amount of \$160,538 thousand and \$(208,914) thousand, respectively.

Details of the year of 2023 and 2022 earnings distribution and dividends per share as approved by the stockholders' meeting on June 18, 2024 and the stockholders' meeting on June 21, 2023, respectively, are as follows:

The credit risk for the Group's financial assets at amortised cost are assessed as low as of June 30, 2024, December 31, 2023 and June 30, 2023 (the same as the assessment result in the beginning of the period). Since the transaction objects of the company are all financial institutions such as banks with good credit, all of them are calculated based on the expected credit loss rate of 0% and the allowance loss amount is \$0 thousand.

The Group measures the loss allowance of its accounts receivable (including notes receivables and accounts receivable) at an amount equal to lifetime expected credit losses. The assessment of the Group's loss allowance as of June 30, 2024, December 31, 2023 and June 30, 2023 are as follows:

Considering counterparties credit rating, industry characteristics and past experiences, the loss allowance of accounts receivable is measured as a single group by using a provision matrix. In addition, the provision matrix is expressed aggregately since overdue days interval between each entities in the Group is equivalent. Details for provision matrix are as follows:

(e) Other information relating to leasing activities

Some of the Group's agreements contain extension and termination options. In determining the lease terms, the non-cancellable period for which the Group has the right to use an underlying asset, together with both periods covered by an option to extend the lease if the Group is reasonably certain to exercise that option and periods covered by an option to terminate the lease if the Group is reasonably certain not to exercise that option. These options are used to maximize operational flexibility in terms of managing contracts. The majority of extension and termination options held are exercisable only by the Group.

After the commencement date, the Group reassesses the lease term upon the occurrence of a significant event or a significant change in circumstances that is within the control of the lessee and affects whether the Group is reasonably certain to exercise an option not previously included in its determination of the lease term, or not to exercise an option previously included in its determination of the lease term.

B. Group as a lessor

According to the Articles of Incorporation, 2% of profit of the current year is distributable as employees' compensation and no higher than 0.5% of profit of the current year is distributable as remuneration to directors and supervisors. However, the company's accumulated losses shall have been covered. The Company may, by a resolution adopted by a majority vote at a meeting of Board of Directors attended by two-thirds of the total number of directors, have the profit distributable as employees' compensation in the form of shares or in cash; and in addition there to a report of such distribution is submitted to the shareholders' meeting. If the Board of Directors subsequently modifies the estimates significantly, the company will recognize the change as an adjustment in the profit or loss in the subsequent period. Information on the Board of Directors' resolution regarding the employees' compensation and remuneration to directors and supervisors can be obtained from the "Market Observation Post System" on the website of the TWSE.

Based on profit of the six-month periods ended June 30, 2024, the Company estimated the amounts of the employees' compensation and remuneration to directors and supervisors for the six-month periods ended June 30, 2024 to be 2% of profit of the current six-month periods and 0.04% of profit of the current six-month periods, respectively, recognized as employee benefits expense. As such, employees' compensation and remuneration to directors for the three-month and six-month periods ended June 30, 2024 amount to \$19,316 thousand and \$375 thousand, \$42,065 thousand and \$750 thousand, respectively and recognized as salaries expense.

Based on profit of the six-month periods ended June 30, 2023, the Company estimated the amounts of the employees' compensation and remuneration to directors and supervisors for the six-month periods ended June 30, 2023 to be 2% of profit of the current six-month periods and 0.06% of profit of the current six-month periods, respectively, recognized as employee benefits expense. As such, employees' compensation and remuneration to directors for the three-month and six-month periods ended June 30, 2023 amount to \$13,182 thousand and \$450 thousand, \$30,624 thousand and \$900 thousand, respectively and recognized as salaries expense.

A resolution was resolved at a board meeting held on March 12, 2024 to distribute \$60,000 thousand and \$1,650 thousand in cash as employees' compensation and remuneration to directors of 2023, respectively. No material differences exist between the estimated amount and the actual distribution of the employee compensation and remuneration to directors and supervisors for the year ended December 31, 2023.

No material differences exist between the estimated amount and the actual distribution of the employee compensation and remuneration to directors and supervisors for the year ended December 31, 2022.

### (2) Financial risk management objectives and policies

The Group's principal financial risk management objective is to manage the market risk, credit risk and liquidity risk related to its operating activities. The Group identifies measures and manages the aforementioned risks based on the Group's policy and risk appetite.

The Group has established appropriate policies, procedures and internal controls for financial risk management. Before entering into significant transactions, due approval process by the Board of Directors and Audit Committee must be carried out based on related protocols and internal control procedures. The Group complies with its financial risk management policies at all times.

### (3) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of the changes in market prices. Market prices comprise currency risk, interest rate risk and other price risk (such as equity risk).

In practice, it is rarely the case that a single risk variable will change independently from other risk variable, there is usually interdependencies between risk variables. However, the sensitivity analysis disclosed below does not take into account the interdependencies between risk variables.

#### Foreign currency risk

The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (when revenue or expense are denominated in a different currency from the Group's functional currency) and the Group's net investments in foreign subsidiaries.

The Group has certain foreign currency receivables to be denominated in the same foreign currency with certain foreign currency payables, therefore natural hedge is received. Hedge accounting is not applied as they did not qualify for hedge accounting criteria. Furthermore, as net investments in foreign subsidiaries are for strategic purposes, they are not hedged by the Group.

The foreign currency sensitivity analysis of the possible change in foreign exchange rates on the Group's profit is performed on significant monetary items denominated in foreign currencies as at the end of the reporting period. The Group's foreign currency risk is mainly related to the volatility in the exchange rates for foreign currency USD. Please refer to Note 12(10) for details on the information of the sensitivity analysis.

When NTD strengthens/weakens against foreign currency USD by 1%, the profit for the six-month periods ended June 30, 2024 and 2023 are decrease/increase by \$26,293 thousand and \$24,192 thousand, respectively.

#### Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's debt instrument investments at variable interest rates, bank borrowings with fixed interest rates and variable interest rates.

The Group manages its interest rate risk by having a balanced portfolio of fixed and variable loans.

The interest rate sensitivity analysis is performed on items exposed to interest rate risk as at the end of the reporting period, including investments and borrowings with variable interest rates. At the reporting date, a change of 10 basis points of interest rate in a reporting period could cause the profit for the six-month periods ended June 30, 2024 and 2023 to decrease/increase by \$193 thousand and \$288 thousand, respectively.

#### Equity price risk

The fair value of the Group's listed equity securities is susceptible to market price risk arising from uncertainties about future values of the investment securities. The Group's listed equity securities is classified under financial assets measured at fair value through profit or loss. The Group manages the equity price risk through diversification and placing limits on individual and total equity instruments.

At the reporting date, a change of 1% in the price of the listed equity securities measured at fair value through profit or loss could increase/decrease the Group's profit for the six-month periods ended June 30, 2024 and 2023 by \$1,682 thousand and \$1,680 thousand, respectively.

Please refer to Note 12(9) for sensitivity analysis information of other equity instruments or derivatives that are linked to such equity instruments whose fair value measurement is categorized under Level 3.

#### (4) Credit risk management

Credit risk is the risk that a counterparty will not meet its obligations under a contract, leading to a financial loss. The Group is exposed to credit risk from operating activities (primarily for accounts and notes receivables) and from its financing activities, including bank deposits and other financial instruments.

Credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to credit risk management. Credit limits are established for all counter parties based on their financial position, rating from credit rating agencies, historical experience, prevailing economic condition and the Group's internal rating criteria etc. Certain counter parties' credit risk will also be managed by taking credit enhancing procedures, such as requesting for prepayment.

As of June 30, 2024, December 31, 2023 and June 30, 2023, amounts receivables from top ten customers represent 81%, 80% and 80% of the total accounts receivables of the Group, respectively. The credit concentration risk of other accounts receivables is insignificant.

Credit risk from balances with banks, fixed income securities and other financial instruments is managed by the Group's treasury in accordance with the Group's policy. The Group only transacts with counterparties approved by the internal control procedures, which are banks and financial institutions, companies and government entities with good credit rating. Consequently, there is no significant credit risk for these counter parties.

The Group adopted IFRS 9 to assess the expected credit losses. Except for accounts and notes receivables, the remaining debt instrument investments which are not measured at fair value through profit or loss, low credit risk for these investments is a prerequisite upon acquisition and by using their credit risk as a basis for the distinction of categories.

Financial assets are written off when there is no realistic prospect of future recovery.

When the credit risk on debt instrument investment has increased, the Group will dispose that investment in order to minimize the credit losses. When assessing the expected credit losses, the evaluation of the forward-looking information (available without undue cost and effort) is mainly based on the macroeconomic information and the credit loss ratio is further adjusted if there is significant impact from forward-looking information.

## (5) Liquidity risk management

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of cash and cash equivalents, bank borrowings and finance leases. The table below summarizes the maturity profile of the Group's financial liabilities based on the contractual undiscounted payments and contractual maturity. The payment amount includes the contractual interest. The undiscounted payment relating to borrowings with variable interest rates is extrapolated based on the estimated interest rate yield curve as of the end of the reporting period.

(7) Fair values of financial instruments

A. The methods and assumptions applied in determining the fair value of financial instruments:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following methods and assumptions were used by the Group to measure or disclose the fair values of financial assets and financial liabilities:

- (a) The carrying amount of cash and cash equivalents, notes and accounts receivables, accounts payable and other current liabilities approximate their fair value due to their short maturities.
- (b) For financial assets and liabilities traded in an active market with standard terms and conditions, their fair value is determined based on market quotation price (including listed equity securities, beneficiary certificates, bonds and futures etc.) at the reporting date.

- (c) Fair value of equity instruments without market quotations (including private placement of listed equity securities, unquoted public company and private company equity securities) are estimated using the market method valuation techniques based on parameters such as prices based on market transactions of equity instruments of identical or comparable entities and other relevant information (for example, inputs such as discount for lack of marketability, P/E ratio of similar entities and Price-Book ratio of similar entities).
- (d) Fair value of debt instruments without market quotations, bank loans and other non-current liabilities are determined based on the counterparty prices or valuation method. The valuation method uses DCF method as a basis, and the assumptions such as the interest rate and discount rate are primarily based on relevant information of similar instrument (such as yield curves published by the GreTai Securities Market, average prices for Fixed Rate Commercial Paper published by Reuters and credit risk, etc.)
- (e) The fair value of derivatives which are not options and without market quotations, is determined based on the counterparty prices or discounted cash flow analysis using interest rate yield curve for the contract period. Fair value of option-based derivative financial instruments is obtained using on the counterparty prices or appropriate option pricing model (for example, Black-Scholes model) or other valuation method (for example, Monte Carlo Simulation).

#### B. Fair value of financial instruments measured at amortized cost

Other than cash and cash equivalents, trade receivables, accounts payable and other current liabilities whose carrying amount approximate their fair value, the fair value of the Group's financial assets and financial liabilities measured at amortized cost is listed in the table below:

	Carrying amount as of		
	June 30, 2024	December 31, 2023	June 30, 2023

### C. Fair value measurement hierarchy for financial instruments

Please refer to Note 12(9) for fair value measurement hierarchy for financial instruments of the Group.

#### (8) Derivative financial instruments

The Group's derivative financial instruments include forward currency contracts and embedded derivatives. The related information for derivative financial instruments not qualified for hedge accounting and not yet settled as of June 30, 2024, December 31, 2023 and June 30, 2023 is as follows:

##### Embedded derivatives

The embedded derivatives arising from issuing convertible bonds have been separated from the host contract and carried at fair value through profit or loss. Please refer to Note 6(11) for further information on this transaction.

#### (9) Fair value measurement hierarchy

##### A. Fair value measurement hierarchy

All asset and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole. Level 1, 2 and 3 inputs are described as follows:

Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities that the entity can access at the measurement date

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 – Unobservable inputs for the asset or liability

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization at the end of each reporting period.

##### B. Fair value measurement hierarchy of the Group's assets and liabilities

The Group does not have assets that are measured at fair value on a non-recurring basis. Fair value measurement hierarchy of the Group's assets and liabilities measured at fair value on a recurring basis was as follows:

As of June 30, 2024

Information on significant unobservable inputs to valuation

Description of significant unobservable inputs to valuation of recurring fair value measurements categorized within Level 3 of the fair value hierarchy is as follows:

- (a) No quantitative information of significant unobservable inputs and sensitivity analysis were available as the fair values of structured investment products and financial products were measured by the unadjusted quotes from transaction counterparties.
- (b) The fair value of unlisted securities is estimated using the market approach valuation techniques based on parameters such as the market transaction prices of comparable companies whose business and industry are similar to the investee's and considering the liquidity discount factor.
- (c) As the binomial tree model is used by the embedded derivatives to price the fair value, the volatility of the embedded derivatives is a significant unobservable input. A change of 1 basis points of volatility could cause the profit of the Group to decrease/increase by \$0.
- (d) The fair value of private-placement funds is estimated using the net asset value and consider the liquidity discount. A change of 1 basis points of the liquidity discount could cause the profit of the Group to decrease/increase by \$533 thousand.

Valuation process used for fair value measurements categorized within Level 3 of the fair value hierarchy

The Group's Management Department is responsible for validating the fair value measurements and ensuring that the results of the valuation are in line with market conditions, based on independent and reliable inputs which are consistent with other information, and represent exercisable prices. The Department analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Group's accounting policies at each reporting date.
